TWO SOX CONFESS; EIGHT INDICTED; INQUIRY GOES ON

SECRECY VEILS TERMS OF U. S. SENT TO TOKIO

Ban on Immigration Asked For, Belief.

BY ARTHUR SEARS HENNING.
Washington, D. C., Sept. 28.—[Special.]—The administration has communicated to Tokyo the extent to which it is willing to go in endeavoring to reach a new settlement of the controversy between the United States and Japan over the immigration of Japanese and the holding of land by Japanese on the Pacific coast.

It is reported that one of the fundamental considerations insisted upon by the administration is that Japan shall give a new guarantee against immigration, either in the form of an amendment to the existing treaty or to the gentlemen's agreement, under which since 1907 Japan has undertaken to prevent the emigration of laborers to America.

Secretary Coby declined today to affirm or deny this report or to discuss the negotiations. The desire of the administration is to maintain complete secrecy until an agreement has been reached, if that is possible.

Tokio's Views Unknown.

The communication of the administration is being taken under advisement by the Japanese government and no intimation of its position thereon has been received here. The matter is believed to have been the subject of conferences between Foreign Minister Uchida and Field Marshal Prince Yamagata.

A good deal of surprise would be occasioned were Japan to consent to the incorporation of immigration restrictions in a formal treaty, as the gentlemen's agreement was devised to save the face of Japan in this respect. The treaty provides that Japanese shall have the right of entry into and residence in the United States and the gentlemen's agreement provides that no Japanese laborers shall be permitted to claim the right.

What Japan is understood to be seeking primarily at this time is an understanding with the federal government to calm the fears of Japanese domination entertained on the Pacific coast from voting approval of the proposed non-alien land law at the forthcoming election.

Seek Pressure on West.

If such an agreement should be reached this month Japan would seek to induce the administration to bring pressure to bear on the Californians to reject the proposed law in the referendum.

A similar move was made with success by Japan when Germany, in 1919, first proposed the pending amendment. The peace negotiations at Paris were in progress and Tokio made such forceful representations to the president that he called a halt on the movement in the state legislature.

He caused Secretary Lansing to request the postponement of the legislation on the ground that it would embarrass the president in accomplishing his objects in the peace negotiations.

Whether Japan had threatened to help leadership if the president permitted the state to enact the law never was disclosed, but the Lansing cablegram had the effect desired by Japan.

When Bryan Fell Down.

Almost the first act of the Wilson administration in 1913 was to send Secretary of State Bryan to California to endeavor to dissuade the legislature from enacting the present alien land law.

He failed and the matter was the subject of a prolonged diplomatic correspondence, the end of which was marked by the failure of Japan to achieve her object, and Mr. Bryan's remark to the Japanese ambassador that "there is no last word between friends."

When, in 1916, the relations between the United States and Germany appeared to be nearing the breaking point the Japanese ambassador went to the White House and lodged so pointed a protest against the Japanese exclusion bill passed by the house that Mr. Wilson caused the Democratic congress to transform the measure into a law excluding nearly all Asiatics except the Japanese.

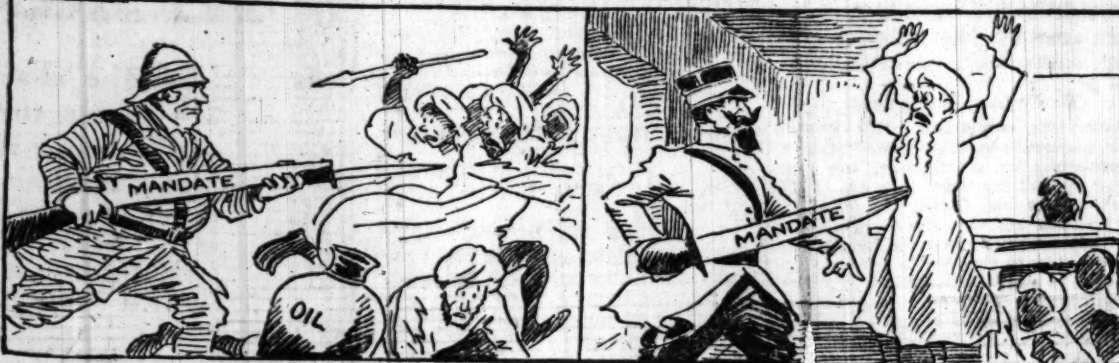

Another Jap Triumph.

The Lansing-Tokio agreement, in which the United States recognized the special interest of Japan in China and on the Asiatic mainland generally, was another fruit of Japanese diplomacy in dealing with the Wilson administration.

To obtain this semblance of American approval of Japanese designs on China, Japan promised to take a more active part in the war with Ger-

GRAND AND PETIT MANDATES

(Copyright, 1920, By The Chicago Tribune.)

John Bull, the well known professional mandator, has taken a mandate over Mesopotamia and her immense oil and other resources. The Mesopotamians are resisting desperately.

Johnny Crapau, the expert French mandator, has taken a mandate over Syria, although the Syrians are fighting determinedly to preserve their self-determination.

Spike Hogan was caught red-handed last night while mandating a house on the boulevard. He had mandated two bags of silver and a box of jewels. He once served three years for petit mandating.

Mr. James J. Jiggitt, a prominent resident of this city, was mandated last night at an alley near his home. After looting his watch and pocket-book he was mandated over the head with the butt of a gat.

A lone train mandator successfully held up the Wonderland Limited just outside of Kansas City last night. Forty thousand dollars were mandated from the express safe and two messengers were fatally mandated.

Mr. G. W. Renthogg, who has taken a fancy to the ancestral home of the Widow Perkins, has mandated the place by virtue of a self-imposed mandate. The widow and children will be allowed to work for him and live in the cellar.

LANDLORD CUTS RENTS; URGES OTHERS TO ACT

A city-wide reduction in all apartment building rents was urged yesterday by Joseph A. Greenberg, 1520 South Albany avenue, west side landlord, as he set the example by announcing a 10 per cent reduction in rents of two buildings he owns.

The buildings are located at 1214 Blue Island avenue and at 1244 Independence boulevard. Altogether seven apartments are involved, six being four room flats and three being five room apartments.

"The time for a drop in prices has come and many manufacturers have fallen into the movement," said Mr. Greenberg. "Food has also taken a drop, and if rents come down generally we will be closer to the before the war conditions. I will follow the step I have taken by instituting a further reduction on May 1."

"Mr. Greenberg seems to have done the right thing," said J. R. Patterson, president of the Chicago Tenants' Protective league. "It looks as if the bottom of the high rent prices is beginning to fall out. Other landlords ought to take the tip and get busy."

Numerous reports were received by Mr. Patterson telling of landlords giving in to tenants after they learned that the latter were members of the tenants' organization.

BEG YOUR PARDON!

'M'SWINEY EATS TO OBEY CHURCH'

Newspaper Says Name of Tabloid Is Known.

LONDON, Sept. 28.—In rebutting the arguments of Lord Mayor MacSwiney's friends that the extreme care given him and the precautions taken against blood poisoning make the duration of his fast less remarkable, it is suggested by some of the newspapers that this explanation would not be difficult to accept in his case, but seems to be illogical when it is considered that there are eleven hunger strikers in Cork who have been abstaining from food for two days longer than MacSwiney, and all of them seem to be making quite as surprising an exhibition of endurance.

Know Name of Vland.

In connection with this feature of the case the Yorkshire Post says: "It is not only asserted that Mayor MacSwiney is being fed, and this by direct orders of dignitaries of his church, but even the name of the sustaining tabloid from which it is alleged he draws sufficient nourishment to remain alive is given."

Official spokesmen in both Irish Nationalist and government quarters stoutly maintain that they know nothing of any surreptitious feeding of MacSwiney.

They agree that if, in some manner, food is being administered it is of an insufficient quantity to sustain the prisoner's life indefinitely. It was admitted in both these quarters that MacSwiney is slowly dying.

Passes Better Night.

Terence MacSwiney, lord mayor of Cork, passed a better night last night, and was, in consequence, a little more refreshed this morning, said a bulletin issued by the Irish Self-Determination league. At midday the league issued a bulletin which said:

"There is little change in the lord mayor's condition. He is suffering great pain in the right arm. To his sister Mary he said: 'I feel quite used up.'"

THE WEATHER

WEDNESDAY, SEPTEMBER 29, 1920.

Sunrise, 6:44. Sunset, 6:37. Moon rises, 6:51 p. m. Wednesday.
Chicago and vicinity—
Fair and much cooler.
Wednesday:
Thursday: fair and continued cool; fresh north west winds, diminishing.
Illinois—Fair and cooler.

Suicide 'Brings Sordid End

to Yankees' Night in Paris

[Chicago Tribune Foreign News Service.]
PARIS, Sept. 28.—Early this morning while Maxim's famous cafe was jammed with Americans dancing and drinking champagne Francis Fourrier, a French accountant, as he sat between two painted women committed suicide by placing a revolver barrel in his mouth and firing. The two women screamed and then fainted and a general panic ensued.

Actor Granville Divorced by Heroine of 'Experience'

New York, Sept. 28.—[Special.]—Mrs. Eleanor Granville, actress, has been granted an interlocutory decree of divorce at New City, N. Y., from Bernard Granville, an actor well known in Chicago. Granville has an income of \$400 a week.

An unidentified woman was named by Mrs. Granville, who was Eleanor Christie, formerly playing in "Experience," at the time of her marriage about five years ago.

Senator's Son-in-Law Is Convicted of Murder

Alexander, Minn., Sept. 28.—Gustaf Nelson, son-in-law of United States Senator Nelson, was tonight convicted of murder. He was accused of killing Joseph Mifflin, a farm hand, who was shot during a scuffle for a shotgun.

ALD. POWERS' HOME BOMBED; POLITICS SEEN

None Hurt; Front of House Wrecked.

A black powder bomb exploded with a terrific noise shortly after 12 o'clock this morning on the front porch of Ald. John Powers' two story frame house at 1234 McAllister place.

The blast blew the alderman and five others out of bed, tore the front of the house apart, broke most of the windows in the neighborhood, shattered all the glass in the bookcases that line the dining room walls, and woke up all the sleepers for six blocks around, but no one was hurt.

The alderman, one of the oldest members of the city council, attributes the damage to political enemies, but says he has no idea who they are, nor why they wished to injure him.

Watchman on Guard.

He spoke standing in the ruins of the demolished front room—while outside the police of the Maxwell street station under Capt. William Russell, the men of the homicide squad, and a group of firemen, walked through the wreckage of the front porch and the doorway.

The alderman has had a private watchman on guard over the house for some time. Why he did not care to say. He has lived in McAllister place for four decades, but during the last few years his real home has been in Michigan boulevard.

Mr. and Mrs. John Hassel, their son and daughter-in-law, Mr. and Mrs. George Hassel, and their grandson, Cornelius, occupy the house with the alderman. The latter sleeps in a room upstairs just over the place where the bomb was set.

Powers Narrowly Escapes.

He arrived late last night. It was shortly after he entered that the bomb was placed on the porch. A long fuse was lit. Two men were seen running. They got into an automobile in Polk street, a block away, and did not wait for the blast.

The police say they believe Italians in the neighborhood want to get Ald. Powers to leave the Nineteenth ward so they can elect one of their own kind. The Italians feel, say the police, that Powers keeps the house only so that he may still represent the Nineteenth ward, which has sent him to the council sixteen times. The ward is 80 per cent Italian. Powers recently defeated one of them, Anthony D'Andre, as Democratic committeeman.

"Diamond Joe" a Leader.

There is a strong Republican faction among the Italians, which recently made "Diamond Joe" Esposito ward committeeman. The Democratic faction among the Italians is said to be jealous of the Republican dominance among their countrymen and to have decided that Powers must go before an Italian Democrat could come to influence.

The police attributed to these racial ambitions the bombs that wrecked the homes of Charles Coe and Louis Loretto, 612 South Morgan street, some time ago.

Capt. Russell and the homicide squad detectives immediately began a round up of the Italians and sought to question some of the Democratic precinct captains.

SIX INJURED IN 2 AUTO CRASHES AT EARLY HOUR

Five persons were sent to Lakeview hospital as the result of an automobile collision at Glenwood and Ridge avenues early this morning. None was seriously injured. No arrests were made.

The injured, are:
EDWARD DONAHUE and HIS MOTHER, 6434 Lakewood avenue.
MRS. M. M. CARR, 6258 Lakewood avenue.
MRS. JULIA MCARTHY, 9823 Lakewood avenue.
MRS. MARY CONDON, 6235 Lakewood avenue.

The Donahue car collided with the car of J. D. Peterson, 1117 Harvard avenue, Evanston. In the Peterson car were his wife and Miss Lillian Haloran, 221 Lunt avenue. The latter three were only shaken up.

An unidentified man was seriously injured at 2 o'clock this morning when a touring car bumped into a La Salle taxi cab at Michigan avenue and Twenty-first street. The touring car went through a plate glass window and wrecked an auto on display. The victim is unconscious at Wesley hospital.

Eight Fired by Comiskey; Wrecks Team

Before true bills against eight White Sox players for conspiracy to commit an illegal act were announced by the Cook county grand jury yesterday noon, President Comiskey of the south side club had prepared and issued notices suspending seven of them indefinitely, which means for the rest of the season. The eighth, Arnold Gandil, already was under suspension for failure to report last spring.

These notices, together with checks for their salaries to date, were served on three of the players before they were aware of their indictment, and the rest of them as soon as they could be located.

Notice of Suspensions.

The formal document, addressed to Charles Risberg, Fred McMullin, Joe Jackson, Oscar Felsch, George Weaver, C. P. Williams, and E. V. Cicotte, follows:

"You, and each of you, are hereby notified of your indefinite suspension as a member of the Chicago American league baseball club (the White Sox). Your suspension is brought about by information which has just come to me, directly involving you, and each of you, in the baseball scandal (now being investigated by the grand jury of Cook county) resulting from the world's series of 1919.

"If you are innocent of any wrongdoing, you and each of you will be reinstated; if you are guilty you will be retired from organized baseball for the rest of your lives, if I can accomplish it. Until there is a finality to this investigation, it is due to the public that I take this action, even though it costs Chicago the pennant.

"Chicago American League Baseball Club.

"By CHARLES A. COMISKEY, "President."

Kills Last Pennant Chance.

By this action the White Sox magazine wrecked the last chance of his team's winning a league pennant and possibly a world's championship this year and perhaps, or years to come.

Asked if he had taken this action suspending the suspected players before their indictment, he replied in the affirmative. Asked if he realized such action meant surrendering all chance for the world's pennant, he bowed his head.

Secretary Harry Grabner of the White Sox later issued a formal statement in behalf of President Comiskey, conveying the presumption that the indictments issued were based on evidence furnished the grand jury by himself, through his attorney, Alfred S. Austrian, under whose direction the investigation has been conducted since last October, involving the expenditure of thousands of dollars.

Not Through Investigating.

The statement in part follows:

"Mr. Comiskey has been investigating for the past year, under the direction of Mr. Austrian, the reports implicating members of the White Sox team in the world's series of last fall, and the moment anything concrete or substantial in the way of evidence was procured, immediately conveyed it to the grand jury and to the chief justice."

"We presume it was this evidence that caused the indictments to follow. We do not propose to discontinue the investigation, and will use every effort to put baseball on the plane it deserves, to which it belongs, and to keep it there."

MRS. BERGDOLL FOUND GUILTY OF CONSPIRACY

Philadelphia, Pa., Sept. 28.—Mrs. Emma C. Bergdoll and four co-defendants were found guilty of conspiring to aid her two sons, Grover and Erwin, to evade the draft law. The verdict was returned before Judge Dickinson in the United States district court.

The case was given to the juryman before noon today, but it was after 8 o'clock tonight before they reached a verdict. Mrs. Bergdoll, her son, Charles Braun, and former Magistrate James E. Romig were found guilty on every count under which they had been indicted.

Albert S. Mitchell and Henry Schuh were acquitted on the indictments in which they alone were defendants, but found guilty with a recommendation for mercy on the joint bills.

On application of their counsel the defendants were released on \$10,000 bail each, pending a motion for a new trial.

Plane No. 4 from Nome Arrives at Alberta

Edmonton, Alberta, Sept. 28.—Plane No. 4 of the United States army, Alaska mail expedition, arrived here late yesterday from Jasper, Alberta, on the return flight from Nome to New York. With Ross Kirkpatrick, piloting the plane, plans to continue his flight to Saskatoon, Sask., Thursday.

"WE THREW WORLD SERIES." CICOTTE, JACKSON, ADMIT

To Indict Gamblers Today Is Plan.

Following the indictment of eight White Sox players on a charge of conspiracy to commit an unlawful act, in relation to the throwing of the 1919 world's series games with Cincinnati, and the confessions of two of them, Eddie Cicotte and Joe Jackson, the grand jury got ready last night for more indictments today.

The jurors intend today to find the missing link—the man who was the go-between—the man who gave the gamblers' money to the ball players. This man is said to be Abe Attel, a former prizefighter.

Those Indicted.

The eight indicted men are:

EDDIE CICOTTE, pitcher, admitted he received \$10,000 from the agent of a gambling syndicate.

JOE JACKSON, outfielder, confessed \$5,000 was paid to him by FRED McMULLIN, utility man.

OSCAR (HAPPY) FELSCH, center fielder.

CHARLES (SWEDE) RISBERG, shortstop.

CLAUDE WILLIAMS, pitcher.

GEORGE (BUCK) WEAVER, third baseman.

ARNOLD (CHICK) GANDIL, former first baseman, who quit major league baseball at the beginning of the present season.

Williams on Grill Today.

Jackson said he was promised \$20,000, the price he asked, and was given only \$5,000.

Claude ("Lefty") Williams, the man who handed Jackson the \$5,000, will be the central figure in the investigation today.

Williams will be asked who gave him the money. He may also be questioned as to his career in the Coast league, and he may be asked as to his knowledge of a scandal regarding fixed games that occurred shortly after Salt Lake City entered the league. Williams, questioned as to his part in the conspiracy, was noncommittal last night.

Raps Jackson's War Record.

After comment on the shipyard record of Joe Jackson during the war, Williams said:

"If I've got anything to say I'll say it to the grand jury, if they want to call me. Nobody's got anything on me. My word's as good as Jackson's. They're not stampeding me. I've got no yellow streak."

"Did I give Jackson \$5,000?"

Ask the policeman on the corner. He may tell you something. I'm not talking for publication. I'm not stamped, either—get me?"

CICOTTE'S CONFESSION

Cicotte confessed first to Comiskey. He went to the "Old Roman's" office early yesterday morning.

"I don't know what you'll think of me," he said, "but I got to tell you how I double-crossed you. Mr. Comiskey, I did double cross you. I'm a crook. I got \$10,000 for being a crook."

"Don't tell it to me," said Comiskey. "Tell it to the grand jury."

Cicotte told it to the grand jury

ADMIT GUILT

EDDIE CICOTTE left for his home in Detroit yesterday immediately after confessing to the grand jury his part in the throwing of the 1919 world's series. "I was a fool," was his sobbing comment as he came from the jury room.

JOE JACKSON cursed and stormed at photographers before making his confession yesterday. But when he came out he was erect and smiling. "I got a big load off my chest," he said, as he posed for the photograph shown here.

in tears and in shame, slowly, haltingly, hanging his head, now and then pausing to wipe his streaming eyes.

Tells of Tempters.

"Risberg and Gandil and McMullin were at me for a week before the world's series started," he said. "They wanted me to go crooked. I didn't know. I needed the money. I had the wife and the kids. The wife and kids don't know this. I don't know what they'll think."

"I bought a farm. There was a \$4,000 mortgage on it. There isn't any mortgage on it now. I paid it off with the crooked money."

"The eight of us—the eight under indictment—got together in my room three or four days before the games started. Gandil was master of ceremonies. We talked about throwing the series—decided we could get away with it. We agreed to do it."

Wanted Cash in Advance.

"I was thinking of the wife and kids, and how I needed the money. I told them I had to have the cash in advance. I didn't want any checks. I didn't want any promises. I wanted the money in bills. I wanted it before I pitched a ball. We all talked quite a while about it, I and the seven others. Yes, all of us decided to do our

COMISKEY HARD HIT BY PERFDY OF HIS PLAYERS

Shock So Great Friends Fear for His Health.

Charles A. Comiskey, who always has taken the greatest pride in the fact that he is the only baseball player who rose from the ranks to sole ownership of a major league club, was on the verge of physical collapse yesterday following the confessions of Cicotte and Jackson and the indictment of eight of his players.

Beyond a visit to the office of Attorney Alfred S. Austrian, in connection with the confessions about to be presented to the grand jury, he remained at Comiskey park, which characterizes as his gift to the fans of Chicago. He was inaccessible to all but his most intimate friends.

He looked broken and worn and old for a man who always has carried his years lightly. These friends openly expressed solicitude for his health following the stunning blow.

From "Shoestring" into Million. Comiskey, forty-four of whose sixty-one years have been spent in professional baseball, came to Chicago in 1900 with what in these days would be regarded as a "shoestring." The original investment in the Sox, whose park was first located at Thirty-ninth and Westworth avenue, was \$20,000. Jimmy Callahan, later manager, and Clark Griffith, now manager and part owner of the Washington club, had an opportunity to secure two-fifths of the club for \$15,000, but could not raise the money.

From this modest investment, Comiskey has become several times a millionaire through the growth of baseball and the popularity of the White Sox team. Besides his other investments, the White Sox franchise, players, and park are valued conservatively at \$1,500,000.

His Baseball Career. Comiskey played his first professional baseball on an independent team in Milwaukee in 1876 at \$50 per month. He later was with Elgin, Dubuque, St. Louis in the time of Chris von Dierke, Brown, and others. He later became manager, manager of the Chicago brotherhood team in 1890, again at St. Louis in 1901, manager of Cincinnati in 1903-04, after which he became owner of the St. Paul franchise of the Western league in 1905. This team he transferred to Chicago in 1906, when the Western league expanded into the American league.

Comiskey's teams have won American league pennants in 1906, 1907, 1908, 1917, and 1919. They won the world's championship in 1906, beating the Cubs and in 1917, beating the New York Giants.

In the winter of 1913 Comiskey and John McGraw financed a trip around the world of the White Sox and New York Giants.

Comiskey Thanks Jury. Mr. Comiskey last night made the following statement:

"The consideration which the grand jury gave to this case should be greatly appreciated by the general public. Charles A. Comiskey, chief justice of the foreman of the grand jury, Harry Brigham, and his associates who so diligently strived to save and make America's great game the clean sport which it is, are to be commended in no uncertain terms by all sport followers, in spite of what happened today.

"Thank God, it did happen. Forty-four years of baseball endeavor have convinced me more than ever that it is a wonderful game and a game worth keeping clean.

"Not Through Yet." "I would rather close my ball park than send nine men on the field with one of them holding a dishonest thought toward clean baseball—the game which John McGraw and I went around the world with to show to the people on the other side.

"We are far from through yet. We have the nucleus of another championship team with the remainder of the all-world's championship team.

Glad It's Cleaned Up. Johnson. "I'm glad it's all cleaned up," President Ben Johnson of the American league said last night. "But it's come too fast for me to say much now. I'll talk more later."

FOUR PLAYERS BLACKBALLED IN SCANDAL OF 1877

Louisville, Ky., Sept. 28.—The Chicago baseball scandal recalls that it was by making an example of four players, Devin, Hall, Craver, and Nichols, all members of the Louisville team of the National league in 1877, that gambling on baseball was effectively broken up at that time and the game kept clean for more than forty years.

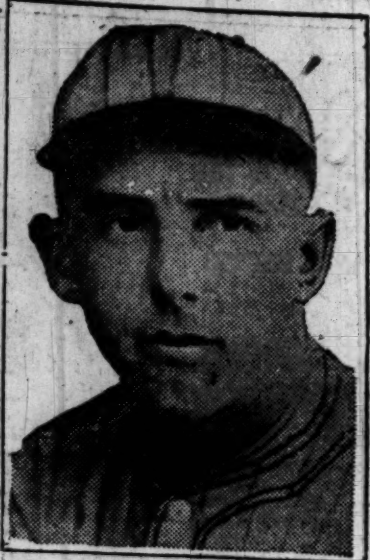

In 1877 Louisville was a member of the six club National league, of which William A. Hurlbut was president. The team was in first place and could have lost more than half its games and still won the pennant. It left on its final eastern trip and the team began to lose constantly. Devin, star pitcher, lost game after game, while errors by Hall, Craver, and Nichols, figured in other defeats. Suspicions aroused, league authorities found the players to be dealing with mysterious persons by wire, employing a code.

President Charles E. Chase of the Louisville club, by playing one off against the other, obtained the confessions of the quartet. They were promptly suspended by the club and league and never were allowed to play another game in organized baseball.

Judge Landis Stunned by Exposure of White Sox. Detroit, Mich., Sept. 28.—Judge District court at Chicago, mentioned as a desirable member of the National baseball commission because of his enthusiasm for the game, was stunned today when told of the indictment of eight White Sox players for throwing the 1919 world's series.

"My opinion of baseball gambling and baseball crookedness in general is well known," Judge Landis declared. "I know nothing of the evidence in this case and do not want to talk about it until I have a chance to absorb the facts."

"Get Out of Baseball," Comiskey Tells These Men

CLAUDE WILLIAMS, pitcher; 27 years old, born in Aurora, Mo.; first played professional ball with Nashville in 1912; then with Detroit; since 1916 with the Sox; is married; winters in Atlanta.

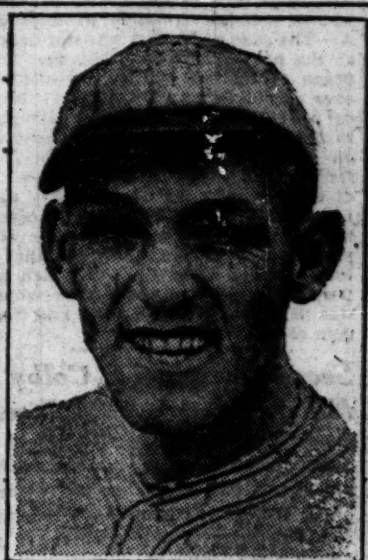

OSCAR FELSCH, outfielder; 29; first played with Fond du Lac, then with Milwaukee; came to the Sox in 1914; married; lives in Milwaukee.

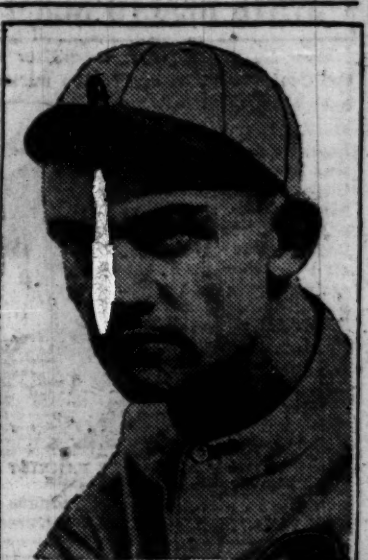

CHARLES A. RISBERG, shortstop; 26 years old; purchased from the Vernon team of the coast league in 1916; is married; lives in San Francisco.

FRED McMULLIN, utility infielder; 29; first played professional ball with Seattle, then with Los Angeles; came to the Sox in 1912; is married; home, Los Angeles.

GEORGE A. WEAVER, third baseman; born at Stowe, Pa.; 29 years old; played with Northampton, Mass., and York, Pa.; purchased by Sox in 1911; is married; home, Chicago.

ARNOLD GANDIL, first baseman; 31; began his career in Shreveport in 1908; then with Sacramento, Montreal, Washington, and Cleveland; bought by Sox in 1917; suspended last spring for failure to report; married; lives in Los Angeles.

SHADOW LIFTED, 'SQUARE GUYS' OF SOX CELEBRATE

At Odds All Season with Suspected Men.

If a pennant or a world's championship had just been won, it would have been no greater cause for celebration than the news of the indictment and suspension of eight White Sox players yesterday to the other boys of the team who were above reproach. With an hour after the news broke, the "right" fellows of the Sox team were gathering and starting a celebration that lasted most of the night.

They gathered last night in a downtown restaurant for dinner. They assembled later, with some additional members at the apartment of Capt. Eddie Collins on the south side. At midnight in Capt. Collins home, the boys were still going, a messenger having gone out and purchased cheese and cold chicken and pickles and other things.

It is true the suspension of the eight stars apparently had wrecked all remaining hopes of a pennant, but a lead carried by the "right" fellows all through this season had been lifted and they simply had to explode.

Get Flash of Indictments.

Few members of the team suspected the big things taking place at the Criminal court building. At 2 o'clock an automobile with some of them in it, including Eddie Collins, Mike Murphy, Amos Strunk, and Nemo Liebold, pulled up block or two away from the court building. Sam Pass, friend of the players and witness in the investigation, went to the courtroom. Immediately he learned of the indictment and suspension of the seven players now with the team.

Down the stairs he flew to the waiting automobile and imparted the news to the fellows. Liebold hugged Eddie Collins. Eddie awaited Amos Strunk on the back. Amos swung his left into Mike Murphy's ribs. Then there was a rush to telephones to notify Ray Schalk and Red Faber and John Collins and Dick Kerr and some of the other "right" fellows who had borne the burden all season.

Fail to Find Gleason.

The dinner downtown followed, and the party was augmented by the presence of Zeb Terry and Tommy Daly, two Cubs who once were White Sox players. After dinner they drove to the apartment of Manager "Kid" Gleason on the south side, but the "kid" wasn't there. They were in a mood to hug him, too. The party at Capt. Collins' flat followed.

Ray Schalk was in Gary, Ind., when the news broke, having driven there in his car to spend the day. He drove back at top speed and joined the party at Capt. Collins' home.

"No one ever will know what we put up with all this summer," one member of the party said. "I don't know how we ever got along. I know there were many times when things were about to break into a fight, but it never got that far."

Divided Even on Field.

"Hardly any of us have talked with any of those fellows, except on the ball field, since the season opened. Even during the batting practice our gang stood in one group, waiting a turn to hit, and the other gang had their own group. We went along and gritted our teeth and played ball. We had to trail along with those fellows all summer, and all the time felt that they had thrown us down. It was tough. Now the load has been lifted. No wonder we feel like celebrating."

At all druggists

CHARLES A. COMISKEY, manager of the White Sox, destroyed his last chance of winning this year's American league pennant and perhaps the world's series with Brooklyn, by suspending seven regulars. Comiskey wrecked his team. In ill health for some time, the shock of the expose left him a broken man.

ALDERMEN FIND IT HARD TO THINK SOX "SOLD OUT"

News of the indictment of eight White Sox players was received at first with disbelief in the aldermanic lounge in the city hall, where baseball is one of the chief topics of conversation, and where many bets were laid on the 1919 world's series.

Ald. William R. O'Toole of the Thirtieth ward is said to have lost \$3,500 on the series. Ald. Joseph McDonough lost \$750. Many aldermen and city officials went to Cincinnati with the Sox and bet heavily.

"It isn't the change I lost that bothers me," said Ald. McDonough, an ardent Sox fan for years. "It is the thought that a bunch of cheap skates could ruin the great national game. There is nothing left to bet on now but lawn tennis. I sure pity Comiskey."

NATIONAL CAMPAIGN —IN BRIEF—

SIoux FALLS.—Asked pointblank as to the Volstead act, Gov. Cox replied that he was for any law not unconstitutional; he joins Senator Harding's first experience with a heckler, and repeats his defense of the league, although saying he would accept "reassuring reservations."

WHEELING, W. Va.—Senator Harding greeted by old time rally of 30,000 persons. Promises budget reform.

WASHINGTON, D. C.—President Wilson opens his letter campaign in behalf of Gov. Cox's candidacy by explaining why Ireland's plea was not heard at the peace table.

WASHINGTON, D. C.—Secretary Daniels rushed to North Carolina to campaign for Gov. Cox. Disappointment with national administration makes G. O. P. victory possible in Tar heel state.

POLES AND REDS REACH DEADLOCK OVER ULTIMATUM

Reported Moscow May Extend Time Limit.

BY PARKE BROWN.

[Chicago Tribune Foreign News Service.]

RIGA, Sept. 28.—"Such a date as Oct. 5 does not exist for us," said Alexander Lado, secretary of the Polish peace delegation today, in speaking of the likelihood of armistice negotiations being concluded within the period fixed by the ultimatum of Moscow.

Desire Speedy Peace. "The Russian delegation," said its chairman, M. Joffe, "is actuated by the desire for a speedy conclusion of an armistice and preliminary peace negotiations. We proposed to postpone the disputed questions, but in no way did we attempt to complicate the work preliminary to peace by any ultimatum whatever."

"On the contrary, we pointed out that, being prepared to make great concessions for the sake of speed, we must limit our willingness to grant these concessions to a definite period of time, since these concessions were warranted only in order to effect an immediate armistice."

May Extend Time Limit. In other words, the Poles intend to take all the time that is required to negotiate a final peace treaty, and M. Joffe's words were taken to indicate his personal opposition to a time limitation, and his belief that Moscow would extend the period if progress made indicated that early results might be expected.

Lithuanian Peace in Sight. WARSAW, Sept. 28.—The Lithuanian government was notified Sunday night by Foreign Minister Sapieha that Polish delegates would be at Suwalki Wednesday night to await a conference with Lithuanian representatives there in an effort to reach a peaceful settlement of the boundary dispute between the two nations.

B. G. Honeywell Appears Winner in Balloon Race.

New York, Sept. 28.—Unofficial reports received late today by the Aero Club of America indicated that B. G. Honeywell of St. Louis was leading in the national balloon elimination race which started from Birmingham, Ala., last Saturday.

It was said the winner of the contest probably would be announced after a meeting of the club's executive committee tomorrow.

Honeywell landed at Thameville, Ont., and covered an approximate distance of 700 miles.

Possants Aid Ukrainians.

BERNE, Sept. 28.—The Ukrainian mission here reported today that the Ukrainian army is advancing continually against the Russian soviet forces and is being supported by the peasants, who are mobilizing.

The Ukrainian troops, according to the mission, in eight days took 8,000 prisoners and captured twenty-two guns, many machine guns, some automobiles, and 300 railroad cars.

FOREIGN NEWS —IN BRIEF—

LONDON.—That Lord Mayor MacSwiney is being fed by orders of church dignitaries and that the name of the life sustaining tabloid is known, is stated by a London paper. The government condemns reprisals; new rioting in Ireland reported.

TURIN.—After disagreement with owners, workers in Fiat factory threaten to transform plant to many factory agricultural implements for exchange with Sicilian and Italian persons who have seized large tracts of land.

STAMPEL, France.—Sadi Lecoq, French flyer, wins James Gordon Bennett cup trophy. Both American competitors failed to finish.

TOKIO.—Japanese newspapers grow more vitriolic in editorial expressions regarding America. One paper terms the United States hypocritical and says it is forcing Japan into war, regardless of Japan's desires.

BRUSSELS.—R. W. Boyden, unofficial United States agent at world economic council, tells why Uncle Sam regards Europe as poor financial risk.

MAHARG WILL COME HERE FOR \$10,000 REWARD.

Philadelphia, Pa., Sept. 28.—Bully Maharg, the Philadelphia man who on Monday made the first confession involving White Sox players, was in Philadelphia tonight. Maharg was particularly interested in the dispatch from Chicago in which he was offered \$10,000 to go there and repeat what he confessed here.

"I accept the proposition of Charles Comiskey. I will go to Chicago and tell the facts to the grand jury providing he sends a certified check for \$10,000 to Harvey Woodruff, sports editor of the Tribune in Chicago. It is to be distinct understood that Mr. Woodruff will be the arbiter of my testimony and will pay me the \$10,000 when I tell the same facts that I gave here on Monday."

WILSON OPENS MAIL CAMPAIGN TO AID GOV. COX

Washington, D. C., Sept. 28.—President Wilson took his first active part today in the presidential campaign. He had Secretary Tumulty write the first of a series of documents regarding the league of nations and other public questions, which it is proposed to issue from the White House to further the candidacy of Gov. Cox.

The document was in the form of a letter to E. M. Swartz of Los Angeles, Cal., discussing the league of nations covenant in relation to the Irish question. Mr. Swartz had written the president that some Republicans contended if the league covenant was ratified with article 16 in it, this country would be bound to support England in holding Ireland under subjection.

Letter of the President.

The president directs me to call your attention to the following questions and answers given by him to the press at the time, which I think satisfactorily answers your inquiries. The questions and answers are as follows:

Q.—Under the covenant, does the nation obligate itself to assist any member of the league in putting down a rebellion of its subjects or conquered peoples? A.—It does not.

Q.—Under the covenant, can this nation independently recognize a government whose people seek to achieve or have achieved their independence?

HARRIET FULMER TO BE APPOINTED CHIEF STATE HEALTH NURSE

Miss Harriet Fulmer, supervisor of the Cook county public health nurses, is to be appointed

state supervising health nurse. She was notified yesterday in her office in the county building that she had passed the civil service examination and would be appointed to the position by Dr. S. C. Clark, director of the state health department. Miss Fulmer topped the list of fourteen applicants who took the examination on June 14 last. She is a graduate of St. Luke's Hospital School for Nurses.

MISS HARRIET FULMER.

from a member of the league? A.—The independent action of the government of the United States in a matter of this kind is in no way limited or affected by the covenant of the league of nations.

On Self-Determination.

Q.—Under the covenant, are those subject nations or peoples only that are mentioned in the peace treaty entitled to the right of self-determination, or does the league possess the right to accord a similar privilege to other subject nation or people? A.—It was not possible for the peace conference to act with regard to the self-determination of any territories except those which had belonged to the defeated empires.

Opinion on Ireland.
Q.—Why was the case of Ireland not heard at the peace conference? And what is your opinion on the subject of self-determination of Ireland? A.—The case of Ireland was not heard at the peace conference because the peace conference had no jurisdiction over any question of that sort which did not affect territories which belonged to the defeated empires. My position on the subject of self-determination for Ireland is expressed in article 11 of the covenant, in which I may say I was particularly interested, because it seemed to me necessary for the peace and freedom of the world that a forum should be created to which all peoples could bring any matter which was likely to affect the peace and freedom of the world.

Secretary and Mrs. Colby Match Wilson's \$500 Check
New York, Sept. 28.—(Special.)—Additional contributions matching the president's \$500 check to the Democratic national committee campaign fund were received by Treasurer W. W. Marsh today. Among the new contributors were Secretary of State Bainbridge Colby and Mrs. Colby, each of whom sent checks for \$500.

ITALIAN LABOR PLANS AID FOR PEASANT REBELS

BY JOHN CLAYTON.
(Chicago Tribune Foreign News Service.)
(Copyright, 1920, by The Chicago Tribune.)

TURIN, Sept. 28.—The local labor situation took a sharp twist today, when workers threatened to transform the great plant of the Fiat automobile company into a factory for the manufacture of agricultural implements.

Their plan contemplates exchanging farm machinery with the thousands of peasants in Sicily and south Italy who seized vast tracts of land last Saturday and Sunday and who lack implements for tilling the soil. The workers' threat was made after their committee and the owners of the Fiat plant disagreed regarding payment for work done during the period in which the plant was operated by the metal workers under the communist regime.

A general status of industrial unrest was evident here today, practically all factories being closed through refusal

of the workers to evacuate them until they had received pay from their employers for their communist labor. The owners announced flatly that they will not obey this demand, but declare that they will carry out the terms of the Rome agreement to the letter. Conservatives stated tonight that it seemed likely that a half way compromise would be effected within a few days.

Several of the smaller factories already have been evacuated by the workers and the employers are now taking inventories. The employers are due to return to work in these plants tomorrow.

SEIZE KING'S ESTATES.
LONDON, Sept. 28.—Estate owned by King Victor Emmanuel of Italy at Santa Maria di Capua Vetere, near Naples, have been seized by members of local agricultural societies, according to a dispatch to the Exchange Telegraph company from Rome. No opposition was offered to the persons seizing the property, it is said.

45,000 Rifles, 8,000,000 Cartridges for Wrangel

The

**Tru-pe-dic
SHOE**

In Chicago Exclusively
At This Store

The "Tru-pe-dic" shoe is a shoe scientifically constructed. It is a real anatomical shoe without the clumsy appearance such shoes usually have.

These shoes have been endorsed by the American Posture League, a society made up of physicians, osteopaths, chiropractors, as well as chiropodists. They recognize the sound, scientific principles upon which these shoes have been based—the three lasts—

The Straight Last—Note First Sketch at Left
The Inflare Last—Note Second Sketch, Left
The Outflare Last—Note Third Sketch, Left

The explanation of these lasts is given directly below each little sketch. Above in the center sketch is a Tru-pe-dic shoe for men taken from our own stocks. Their comfort is self-evident.

To those who are in need of this type of shoe, this presentation will be of real and practical interest.

Men's Shoes—First Floor, South.

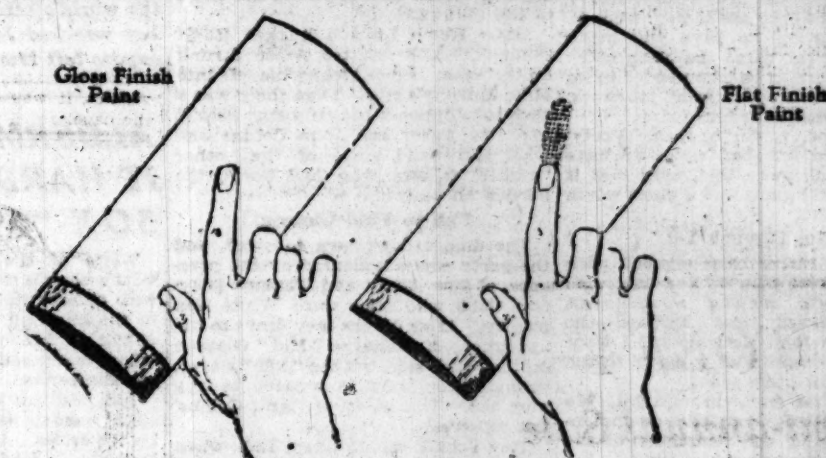

STRAIGHT—where none of the surface across the ball (A-B) is inside turned out outside the last (C-D).

INFILARE—where none of the surface across the ball (A-B) is inside turned out outside the last (C-D).

OUTFLARE—where none of the surface across the ball (A-B) is inside turned out outside the last (C-D).

Try this test yourself
Rub your finger over dirt-resistant gloss paint. It will not leave a mark. Then note the smudge your finger leaves on the porous surface of flat finish paint.

It will pay you to make this test
for interior paint

Photo-micrographs of paint surfaces

A sample of flat finish paint. Note the rough uneven surface—always ready to catch stray dust particles.

Even under a high powered microscope the surface of Barreled Sunlight is smooth and glossy—resistant to dirt.

BEFORE you buy the paint for the ceilings and walls of your place—find out what kind of service it is going to give. Try this simple test. It may save you much time, trouble and expense.

Take two panels, one painted with flat white paint, and one with Barreled Sunlight. First draw your finger firmly over the gloss surface of Barreled Sunlight, and then over the flat finish paint. No trace of dirt will remain on the Barreled Sunlight. On the flat paint a distinct smudge will appear. This shows how readily the rough, porous surface of flat paint collects dust and dirt. A postcard to us will bring you two of these panels.

The smooth, like-like surface of Barreled Sunlight is highly resistant to all forms of dust and dirt—and when soiled after years of service it can easily be washed clean. A process, controlled exclusively by us, insures that Barreled Sunlight will remain white longer than any other gloss paint. This we guarantee.

Ordinary gloss paints rapidly turn yellow, thus cheating you out of your original purpose—to make your factory walls a brilliant, pure white, reflecting and diffusing the maximum amount of the sunlight from the windows or the radiance of whatever artificial light you use.

Barreled Sunlight is used today in thousands of plants. It is sold in barrels, also in cans. Applied by brush or spray method. Write for booklet, "More Light."

For shop and home, too Barreled Sunlight is also used in countless institutions, stores, garages, small buildings, and in rooms in the home—wherever a white, tile-like finish is desirable. It is much cheaper than enamel and easier to apply. Sold in gallons, half-gallons, quarts, pints and half-pints.

OLD TIME GREETINGS AT WH

Two Overflow
Are Hel

BY PHILIP K

Wheeling, W. Va., Sept. 28.—[This town was with Republican enthusiasm for Harding as the challenger to Woodrow Wilson. It brought 36,000 visitors to the streets and the streets were a surging mob.]

Senator Harding was speaking three times during the day—once from the balcony of the Clure hotel, where the state fair was packed; once in Market street, where Gov. Cox failed to attend; and once at his recent visit here, at an overflow meeting at the Clure hotel. The American Marching band, smart in Blaine white, and blue parasols, and marching clubs from adjoining counties in the city, added to Harding's own ability. Bands and parades around town all evening long.

It had been intended to meet at the state fair, where Harding could have 10,000, but this was vetoed by managers of the party.

Finds Some Party

There is some factional state and the defeated Republican candidate for governor, Sam H. Harding, found himself in a meeting at the Clure hotel, where Judge E. F. Morgan, successor, who conducted the meeting. The crowd there was friendly and gave the splendid welcome.

He found the tide of Republican high in West Virginia. He had come to the conclusion that the people of this country were first, to put their house in order, then to tell the world that they were ready to run their own affairs.

Answers Another

A friendly backer asked why the coal shortage continued. Each-Cummings bill, to which the senator had referred in praise of a good bill. The senator said the bill was all right, but that the interstate commerce commission failed to carry out its instructions. In speaking on the high, the senator said the bill would make a recovery from the simple living, thirty added that he would not be to find Germany one of the back in its place among the of the world.

OLD TIME RALLY GREETING HARDING AT WHEELING

Two Overflow Meetings
Are Held.

BY PHILIP KINSLEY.
Wheeling, W. Va., Sept. 28.—[Special.]—This town was ablaze tonight with Republican enthusiasm. An old-fashioned political rally, with Senator Harding as the chief attraction, brought 30,000 visitors from three states and the streets of Wheeling were a surging mob.

Senator Harding was forced to speak three times during the evening—once from the balcony of the McClure hotel, where the streets converging there were packed from curb to curb, once in Market Auditorium, where Gov. Cox failed to fill the hall at his recent visit here, and in another overflow meeting at the Carroll club. The American Marching club of Pittsburgh, smart in Elaine hats, and red, white, and blue parasols, and bands and marching clubs from half a dozen adjoining counties in the Ohio valley added to Harding's own noise making ability. Bands and paraders marched around town all evening with no place to go.

It had been intended to hold the main meeting at the state fair grounds, where Harding could have addressed 10,000, but this was vetoed by the local managers of the party.

Finds Some Party Division.
There is some factional trouble in the state and the defeated Republican candidate for governor, Sam Montgomery, is running on a nonpartisan ticket. Harding found himself in the hands of Judge E. F. Morgan, successful candidate, who conducted the Auditorium meeting. The crowd there was entirely friendly and gave the candidate a splendid welcome.

He found the tide of Republicanism running high in West Virginia, he said. He had come to the conclusion that the people of this country want two things—first, to put their house in order, and then to tell the world that "we are big enough to run our own affairs."

Answers Another Heckler.
A friendly heckler asked, the senator why the coal shortage continued if the Eech-Cummings bill, to which the senator had referred in praise, was such a good bill. The senator replied that the bill was all right, but that the interstate commerce commission had refused to carry out its instructions.

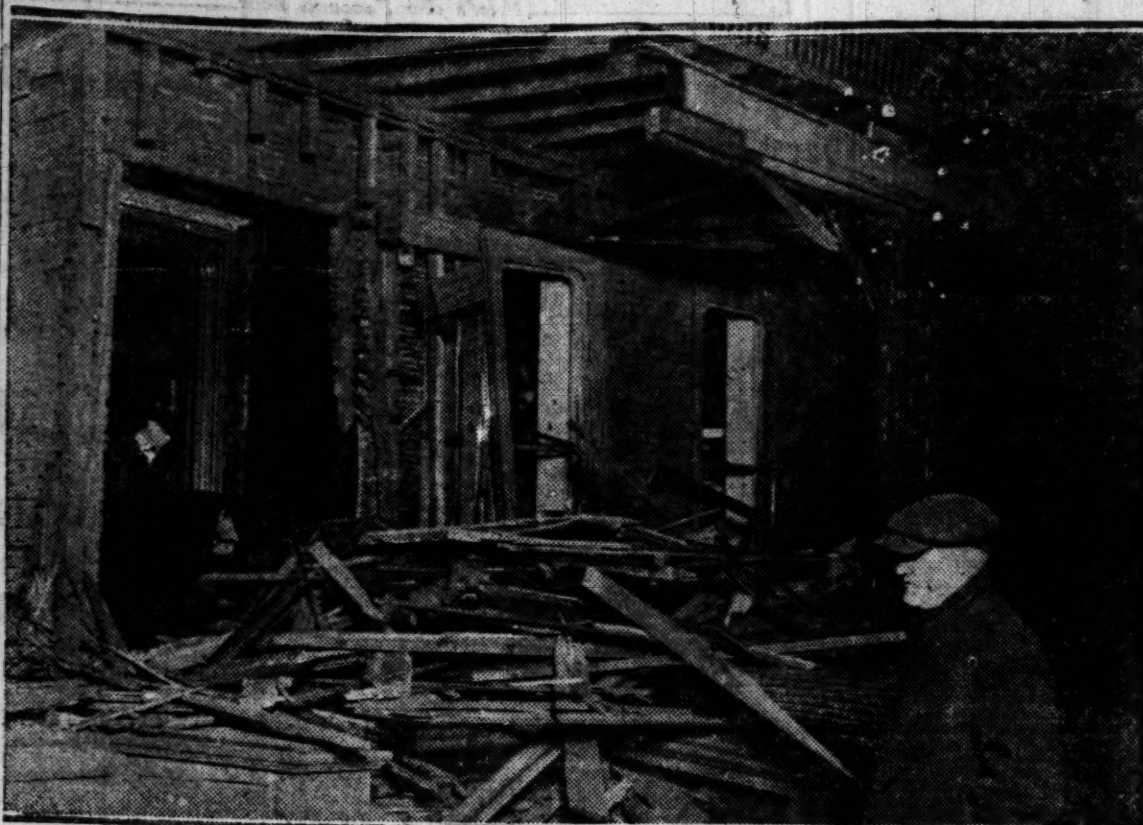

In speaking on the high cost of living, the senator said the first nations to make a recovery from the war would be the simple living, thrifty nations. He added that he would not be surprised to find Germany one of the first nations back in its place among the nations of the world.

Leads Role by Democrats.
After sketching the recent history of government expenditure, he said:

"Industrial reports from one end of the country to the other indicate a falling off in business, an increase in the interest rate charged to business men for legitimate commercial and industrial loans, a stringency in the money market, a dearth in building, while many in the country find it impossible to get homes suitable for their accommodation. These conditions are due, either directly or indirectly, to the gigantic failure of the present Democratic administration to function as a business organization. It has drawn the very life blood from the channels of business to keep itself alive—a process which, if continued, will inevitably produce a collapse of our industrial system."

The senator left at 11 o'clock for Kentucky, where he will make several addresses tomorrow.

Politics in the Nineteenth

The wrecked front of Ald. Powers' home, 1284 McAllister place, photographed at 1 o'clock, shortly after the explosion. (TRIBUNE Photo.)

ARE YOU WET OR DRY, MR. COX? I AM FOR JUSTICE

Heckler Pins Entry to
Find He's Loose.

BY ROBERT B. SMITH.

Sioux Falls, S. D., Sept. 28.—[Special.]—The question: "If elected president of the United States what will be your attitude in regard to the Volstead act?" was first pointed blank at Gov. Cox by a man in the crowd at Mitchell, S. D., today. The governor made this reply:

"My attitude with reference to the whole question is this: I shall oppose any measure that is in conflict with the constitution of the United States and the eighteenth amendment as interpreted by the Supreme court."

This is the first time he has been confronted by a direct demand for a statement of his position on modifying the Volstead act.

Well, Is He Wet or Dry?
The Supreme court has held that intoxicating liquor and to limit the alcoholic contents. The governor's answer, therefore, does not commit him against any effort to increase the alcoholic content fixed by the Volstead act.

Gov. Cox broke the 1920 campaign speed record today by making seventeen speeches in seventeen different towns in South Dakota. He began talking shortly after sunrise and was still going strong at 10 o'clock to night, although his voice was frayed.

He campaigned all day in strongly Republican territory. South Dakota was one of the three states west of the Mississippi that Mr. Hughes carried in 1915. Gov. Cox made further efforts to unload the burden of the Wilson administration.

"How about the bureau of war risk insurance?" shouted a man at Yankton.

"The bureau, I am very frank to say, needs reorganization, and it will

be reorganized the first week I get in Washington," Gov. Cox replied.

Spooks Senator Harding.
The governor poked fun all day long at Senator Harding's experience with the heckler at Baltimore, and his statement that he had no constructive program to offer as a substitute for the league of nations.

"The fighting is now in the open," he said. "The front porch season is over. Yet I am amazed to observe that in the first meeting at Baltimore, when an American citizen asked Senator Harding whether he intended to scrap the league, the senator characterized the mere exercise of a citizen's privilege as a discourtesy."

"I can understand how a member of the senatorial oligarchy, which for years has defied public wish and interest, would develop as a habit the thought that the senatorial mind should not be questioned."

"A Gigantic Conspiracy."
The candidate of the oligarchy by his statement that he has no constructive plan to offer as a substitute for the league, which he has said he would scrap, enters a plea of guilty on behalf of himself and his associates for the most stupendous conspiracy the world has ever seen.

"Our best scholars, ecclesiastical thinkers, greatest lawyers, after having worked for a long time, developed a plan. All of that is to be discarded, and the candidate says, I ask you to go with me. I don't know where I'm going, but I am on my way."

Fail to Reach Verdict

on De Bronkard Charges

The Board of Trade directors failed yesterday to find Eugene H. De Bronkard guilty of making false statements as to the financial standing of Eugene M. Hoyne when the latter joined the board two years ago. The directors' vote was insufficient to fix a definite verdict, it was said. This action ends the case.

DANIELS RUSHED TO STOP FOE IN TAR HEEL STATE

Washington, D. C., Sept. 28.—[Special.]—The hurried departure of Secretary of the Navy Daniels today to take part in the presidential campaign in North Carolina, his native state, and disclosure that the Democratic senatorial campaign is not functioning in the fight which means much in the fate of the league of nations, served to emphasize the general spirit of depression over the political outlook among administration leaders here.

That Democratic leaders are actually apprehensive over the situation in North Carolina where Republicans threaten to break in on the solid south was admitted in administration headquarters when it became known that Secretary Daniels had left today's cabinet meeting to leap into the Tar Heel state breach.

**EVERY WOMAN TO
THE POLLS, PLEA
OF COMMITTEE**

Every school teacher in Chicago was enlisted yesterday in the campaign to bring the women of the city to the polls on election day, Nov. 2. Circulars calling attention to the fact that women now can vote for all offices were distributed to the teachers during the afternoon at the headquarters of the Every Woman at the Polls committee in the Stevens building.

The teachers will pass the circulars out to all their pupils within the next few days with instructions to take them home to their mothers.

Mrs. Jacob Baur, president of the Chicago Equal Suffrage association, has sent out a call to all women to register at the polls on either Oct. 2 or Oct. 12.

FIFTEEN MOOSE, 1912 HERD, STRAY INTO COX CORRAL

Washington, D. C., Sept. 28.—[Special.]—The Democratic national committee announced today that fifteen Progressives who joined with the late Theodore Roosevelt in forming the Bull Moose party in 1912 united today in addressing an appeal to support Cox and Roosevelt in November.

The movement, it was announced, had its beginning on the floor of the Republican national convention at Chicago last June, when Harold L. Ickes, delegate at large from Illinois, opposed the old guard dictating Senator Harding's nomination.

In addition to Mr. Ickes, those who signed the appeal in behalf of Cox and Roosevelt are:

MATTHEW HALE, Massachusetts, chairman Progressive national executive committee, 1916.

FRANCIS J. HENNEY, Progressive candidate United States senator California, 1912.

JUDGE BEN B. LINDSEY, Denver, Colo.

ELIAS D. SAULSBURY, chairman Indiana Progressive state committee, 1916.

JOSEPH MISBACH, chairman Iowa Progressive state committee.

JOHN M. PARKER, nominated for vice president with Theodore Roosevelt by Progressive national convention, 1916.

ROSCOE FERTICH, former secretary Indiana Anti-Saloon league.

ANTONETTE FUNK, Chicago.

H. R. HOLLMAN, Progressive national committeeman, Missouri.

EDWIN M. LEE, chairman Indiana Republican state committee, 1900.

A. A. ANDRIDGE, Ohio delegate Progressive national convention, 1912 and 1916.

CHARLES W. REYNOLDS, Covington, Ky.

GEORGE C. RUEBLE, New Hampshire.

W. H. NICHOLS, Progressive national committeeman, Vermont.

180 Barrels of Real Beer

Poured Into Chicago River

One hundred and eighty barrels of high life beer, the last of the ill fated cargo of the good ship Mineral City, seized by government officials as it was entering Chicago from Kenosha, more than a year ago, was poured into the Chicago river yesterday. Marshals Tom Murray and Tom Sheehan were masters of the ceremony.

JAPANESE PAPER DENOUNCES U. S. AS HYPOCRITICAL

Terms America a Wolf in
Sheep's Clothing.

(Chicago Tribune Foreign News Service.)
Copyright: 1920. By The Chicago Tribune.

TOKIO, Sept. 28.—A section of the Japanese press is growing more vitriolic toward America despite the urgings of many publicists for calmness. The Yordzu, a prominent opposition paper, in commenting editorially on the fact that the Los Angeles Times has joined the San Francisco press in an anti-Japanese policy, says Americans are now attempting to force Japan to fight whether she likes it or not.

Paper Berates United States.

In part the editorial said:
"We never dreamed that America would go to such lengths of selfishness and aggression so soon after the war. We are unable to remain calm when America is showing herself to be such a hypocrite, a wolf in sheep's clothing, a monster masquerading as an angel."
"After trampling Hayti and San Domingo under foot she now attempts interference in Saghalien, incites a revolt in Korea, and stirs up hostility on the part of China toward Japan. At such a rate America's attitude to Japan will soon be worse than it is to the blacks. It is no wonder that Japanese blood has reached the boiling point."

To Aid Famine Victims.
The Kokumin demands that publicity be given to every step in the present negotiations, saying that nothing can be gained in keeping the nation ignorant of America's true intentions.

It practically has been decided that the Japanese government give to the Chinese famine sufferers the 2,000,000 bushels of rice, now held in storage here, that was purchased by the government to control the retail price.

Japs Swap Wooden Ships for 250,950 Tons U. S. Steel

Washington, D. C., Sept. 28.—Cargo steamers aggregating 374,000 tons have been completed by Japanese shipbuilders for the shipping board in exchange for 250,950 tons of steel, according to a report today from Tokio to the department of commerce. Building of the ships in exchange for steel was in accordance with the contract between the shipping board and the Japanese shipbuilders consequent upon the prohibition of steel exportation by the American government during the war.

CITY NEWS BRIEFS

HIRAM H. ROWE, in a De Havilland-4 mail plane, flew from Omaha to Chicago in 3 hours and 50 minutes.

MRS. JOSEPHINE WAREHOWE, 375 Highland avenue, Passaic, N. J., 40 years old, widow, writes she wants a husband.

WALTER O'DONNELL, brother of "Spike," arrested when thirty barrels of whisky disappeared from a warehouse where he was employed.

SECRETARY SI MAYER of the police reported 177 gun totes were arranged in the first three weeks in September; sixty-one convicted, thirty-four discharged, sixteen placed on probation.

POLICEMEN ordered to appear before the trial board by Chief Garrity were S. J. O'Neill, P. J. Fee, Frank Coffey, D. J. O'Brien, J. P. Mullin, J. J. Boland, and Albert O'Donnell. Charges range from intoxication to attempted graft.

Can We Increase Your Coal Property Investment in Value?

No. 4 of a series.

—As Sales Manager

From experience in distributing millions of tons annually, we have valuable knowledge of present and future markets; can advise as to market possibilities on contemplated mining operations, or sell the coal from small mines more economically and profitably than their own sales offices.

Service Based on 37 years successful Ownership Experience. Our complete service in coal property management includes financing, operating and selling—every phase the practical development of our long experience as owners and managers in virtually all important bituminous fields.

6,485,098 RESIDE IN STATE TODAY; 846,507 GROWTH

Washington, D. C., Sept. 28.—[Special.]—Illinois' population increased 15 per cent from 1910 to 1920, according to the census bureau. The total is 6,485,098, an increase of 846,507 over 1910, when it was 5,638,591. Twenty years ago it was 4,831,850.

Totals for Cook county also were announced today. The population, including Chicago, is 2,653,017, an increase of 26.9 per cent over 2,405,233 ten years ago. The new total is 647,744 more than ten years ago, this increase being three-fourths of the increase for the entire state.

Chicago's population, announced several months ago, is 2,761,212.

Renew Your Linoleum

IS your linoleum dull and dead-looking? Bring it back to life and it will reflect a bright, clean, well-cared-for home. All you need is Johnson's Prepared Wax and a cloth. The Wax gives a dry, glossy, dustless polish of great beauty and durability.

Johnson's Prepared Wax brings out the pattern of linoleum—preserves and protects it from wear. It doesn't take long—an ordinary sized floor can be polished in less than an hour and it may be walked on immediately.

JOHNSON'S PREPARED WAX

Polish your furniture, woodwork and floors with Johnson's Prepared Wax. It forms a thin, protecting coat over the surface, similar to the service rendered by a piece of plate glass over a table or dresser top.

Johnson's Prepared Wax comes in three convenient forms—a form for every use!

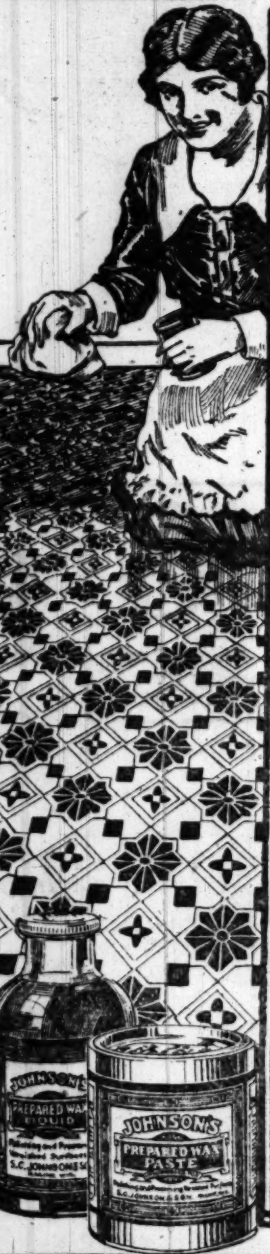

Johnson's Paste Wax—for polishing floors of all kinds—wood, linoleum, tile, marble, etc.

Johnson's Liquid Wax—for polishing furniture, woodwork, leather goods and automobiles.

Johnson's Powdered Wax—immediately puts any floor in perfect condition for dancing.

Your dealer has "JOHNSON'S"—there is no substitute.

COMPROMISE IN SIGHT ON G. O. P. ELECTORS' LIST

BY E. O. PHILLIPS.

Compromise on the nomination of Republican presidential electors for Illinois that Secretary of State Emerson may certify to the November ballots is in sight, and will be determined tomorrow morning at the Great Northern hotel. The "old" and the "new" state committees will meet simultaneously, in conformity with the twin calls issued by Frank L. Smith, chairman of each committee.

There still remains to be settled the nomination of three candidates for university trustees and the big question of who shall handle the presidential and state campaigns in Illinois between now and Nov. 2.

The city hall claims the right to direct the state campaign, it is understood, on the basis that City Hall Frank L. Smith, its primary candidate for United States senator, is the state chairman, backed up by the further claim that Len Small has been nominated for governor.

The situation is complicated by the establishment of the Deane-Brundage county committee in official control of Republican party affairs in Cook county, through the action of the county convention Monday. Reports yesterday had it that the state campaign, which includes the handling of the campaign funds from the national committee, may be placed in the hands of an executive committee, ignoring Col. Smith as chairman.

Democratic national headquarters in the Consumers building yesterday issued a statement signed by 15 Moore by fifteen former Progressive Cox's, headed by Harold L. Ickes, urging support of the Cox-Roosevelt national ticket. In addition to that of Mr. Ickes, the names attached are: Matthew Hale, Massachusetts; Francis J. Bailey, California; Ben B. Lindsey, Colorado; Elias D. Saulsbury, Indiana; Joseph M. Mahach, Iowa; John M. Parker, Louisiana; Roscoe F. Fritch, Indiana; Antoinette Funk, Illinois; H. H. Holman, Missouri; Edwin M. Lee, Indiana; A. A. Andridge, Indiana; Charles W. Reynolds, Kentucky; George C. Rublee, New Hampshire; W. H. Nichols, Vermont.

Register on either Oct. 2 or Oct. 13 if you want to vote in November. It is the new slogan of the Illinois Equal Suffrage association, issued yesterday by Mrs. Grace Wilbur Trout. "The big thing that women must recognize at this moment," Mrs. Trout said, "is that they have to register on one of the two days if they hope to exercise their new full right of suffrage."

RED ENVOY

Bolshevik Representative in Berlin Disturbing Factor.

WIGDOR KOPP.

(Photo: Tribune Foreign News.)

Wigdor Kopp is the representative of the bolshevik government in Berlin. He has been accused of agitating Red uprisings among the German radicals.

Colorado: Elias D. Saulsbury, Indiana: Joseph M. Mahach, Iowa: John M. Parker, Louisiana: Roscoe F. Fritch, Indiana: Antoinette Funk, Illinois: H. H. Holman, Missouri: Edwin M. Lee, Indiana: A. A. Andridge, Indiana: Charles W. Reynolds, Kentucky: George C. Rublee, New Hampshire: W. H. Nichols, Vermont.

Register on either Oct. 2 or Oct. 13 if you want to vote in November. It is the new slogan of the Illinois Equal Suffrage association, issued yesterday by Mrs. Grace Wilbur Trout. "The big thing that women must recognize at this moment," Mrs. Trout said, "is that they have to register on one of the two days if they hope to exercise their new full right of suffrage."

LEGION CHEERS MAJ. GEN. WOOD; GREET'S ALLIES

Cleveland, O., Sept. 22.—Wood!

Two thousand men took up the cry and hurled it against the roof of the big auditorium.

Then when Maj. Gen. Leonard Wood came forward, 2,000 delegates to the American Legion convention stood up and yelled.

The man kept in the United States while the boys he had trained and loved went overseas barked out "As you were!" As one man the 2,000 sat down.

Warns Against Propaganda.

Referring to Gen. Fayolle of the French army and Admiral Grant of the British navy, with whom he had come to the convention as an escort of honor, he told the Yanks:

"Let us remember our association in the war with the armies and navies represented here today. Don't let any insidious influence drive a wedge between us. Don't ask 'Who won the war?' We won it together.

"We did our part, and we're going to do it again. We were a bit slow getting in, but that wasn't our fault. The heart of America was in the war the day the Lusitania was sunk."

Cheers Halt His Speech.

There the general had to stop while the Yanks "let 'er buck" with a whoop and yell.

The speech turned to the allies who held the line "while we were trying to find out whether the war was a holy war or not."

Then the I. W. W.'s got theirs: "Cowards, assassins, never good fighting men."

Wood! Wood! Wood! Wood! The cry was taken up as he started to stride out of the hall. Instinctively the whole body of veterans rose and came to attention, remaining so until he had left.

The Legion stand on military training as adopted by the convention provides for the support, by the Legion of the national guard.

The convention urged "adoption by

contrast of a system of compulsory universal training which shall include physical and educational training and Americanization, as well as efficient military training, to form a foundation for future extended military training in time of war.

The men receiving this training for military service, however, "are in no case to be used as soldiers in time of peace."

The educational program at present under way in the United States army was endorsed. Continuation of

allotments and allowances for married service men was recommended.

The convention endorsed the adjusted compensation that passed the house of representatives by 289 to 82 May 29, 1920, and which is pending before the United States senate.

The committee on the time and place of the next convention was called and it recommended that Kansas City, Mo., be given the convention on Oct. 31, Nov. 1 and 2, 1921. This was adopted.

WOMEN APPEAL TO MAYOR TO END MORON ATTACKS

Arrived by the increased activity of morons, members of the Woman's Protective association met in the Court of Domestic Relations yesterday and ordered the framing of a resolution asking for more rigid police protection for their sex.

The motion was made to petition the mayor, "who controls our police," and request his aid in stopping the attacks of morons and degenerates in Chicago and suburbs.

"I suggest that a committee of three be appointed to carry the resolution for me," said Thompson, and wait in his office until he gets it personally," one member said, "because otherwise it might be opened by a secretary and thrown upon the floor."

Mr. David Hill Dank, president of the association, promised the subject would be taken before the board of directors next week.

Asks Aid for Unfortunates. Judge Harry M. Fisher of the Court of Domestic Relations spoke to the women of their opportunity to help the 1,000 children born out of wedlock in Chicago each year by forcing the passage of better laws.

"It is unfortunate that women are compelled to go through such scenes as you saw in my court this afternoon just to obtain a paltry sum to support their children," he said.

"When a man disobeys the laws of society and his parenthood can be proved in court he is able fully to discharge his obligation by paying \$1,100 a year for ten years."

Girl Is Attack Victim. The latest victim of a criminal attack is 13 year old Victoria Bothus, 230 South Loomis street. She was kidnapped Monday night by two men who came up in a machine as she was sitting on a park bench with her sweetheart, Edward Stein, of 726 West Seventeenth street. The latter fled and the machine bore her to an alley near Throop and Adams streets. Her screams and struggles frightened the men from their purpose. She escaped by jumping from the car.

MAKE IMMEDIATE PEACE WITH GERMANY, LOOP BANKER URGES

A plea for an immediate peace with Germany was made yesterday at the weekly luncheon of the Electric Club of Chicago by John H. Fletcher, vice president of the First National bank.

"I consider the United States of America a corporation," he said, "and as such we, as business men, should demand of the house and the senate, which are acting as a board of directors, that they make peace immediately with Germany. Then we can go ahead with our reconstruction plans."

"The Yank today is on top of the world, and we must keep him there. If we fail it is our own fault. We are the richest and most powerful country in the world, and there can be no good reason or excuse if we fail to stay so."

FRENCH AIRMAN WINS RACE FOR BENNETT TROPHY

ETAMPES, France, Sept. 28.—[By the Associated Press.]—Sadi Lecoq, the famous French aviator, today won the international airplane race for the James Gordon Bennett trophy. He covered the course of 300 kilometers, or 186.1 miles, in 1 hour, 6 minutes, 17.4 seconds.

Bad flying weather held up the start. None of the six entrants—three French, two American, and one British—volunteered to take the air when the hour for starting the race came. The contest did not start until 1:30 p. m.

Kirsch of the French team withdrew after covering 200 kilometers. Capt. de Romanet of France, the only competitor beside Lecoq to finish the race, completed the course in 1 hour, 39 minutes, 53.2 seconds.

Why Yanks Lost Race. The Dayton-Wright entry flown was forced to land before completion of the first lap on account of a simple fault in the hinge of the forward "ruff" on wings which represented the first step yet taken in the all important direction of a variable camber which produces a knife-like edge to the wing for high speed and permits an easy angle for slow landing.

The United States army plane, carrying a twelve cylinder Packard engine, developed 200 more horsepower than did the engine of any other contestant, but a defective cooling system, which apparently was neglected in the government's \$100,000 expenditure on this plane, forced its pilot, Capt. Schroeder of Chicago, to land and quit the race when the terrific heat generated reduced the plane's power.

Cox Entry Declared Out. The proposed Cox entry, built along Curtiss lines, easily excelled all other entrants in lightness of construction and speed, but again faults in landing

engineering details cost America first place in the James Gordon Bennett air classic at Etampes today.

The present ineffectiveness of the United States in the air incontrovertibly was demonstrated when, with planes that individually outclassed all those of the other entrants in original ideas, high power, combined with stability and high power combined with lightness, Uncle Sam failed to produce a single aeroplane that could complete even one lap of the course.

How America Failed. The Dayton-Wright entry flown was forced to land before completion of the first lap on account of a simple fault in the hinge of the forward "ruff" on wings which represented the first step yet taken in the all important direction of a variable camber which produces a knife-like edge to the wing for high speed and permits an easy angle for slow landing.

The United States army plane, carrying a twelve cylinder Packard engine, developed 200 more horsepower than did the engine of any other contestant, but a defective cooling system, which apparently was neglected in the government's \$100,000 expenditure on this plane, forced its pilot, Capt. Schroeder of Chicago, to land and quit the race when the terrific heat generated reduced the plane's power.

Cox Entry Declared Out. The proposed Cox entry, built along Curtiss lines, easily excelled all other entrants in lightness of construction and speed, but again faults in landing

gear made safe landing impossible, with the result that the Cox plane crashed to earth while attempting to land after a trial flight and was declared out of the race—engineering negligence again.

Great crowds watched the race which stretched throughout most of the day. When Pilot Rayham, the English entrant, failed to complete the first lap in the late afternoon and withdrew from the race on account of motor troubles, the enthusiastic Frenchmen went wild over Lecoq's victory, carrying their hero on their shoulders around the grounds. It is rumored that Lecoq is engaged to marry an American girl.

Lecoq, by winning today's race, gives France possession of the James Gordon Bennett cup, as this was the third consecutive victory by the French.

He left all the James Gordon Bennett cup records far behind. He also lowered the world's record for the distance flown, although faster time has been made over shorter distances.

Both Schroeder and Rinhart, congratulated Lecoq. "The best man won," said Rinhart, "but you can't convince me that the fastest machine did."

MOUNT VERNON PAPERS UNITE. Mount Vernon, Ill., Sept. 28.—Consolidation of the Mount Vernon Daily News and the Mount Vernon Daily Register was announced today. The name of the combined newspaper will be the Mount Vernon Register-News.

MARSHALL FIELD & COMPANY

Gowns Youthful in Line Depict Natural Charm

FOR the social affairs of early Autumn, a becoming afternoon Gown of soft clinging crepe Georgette, lustrous crepe meteor or one of the unusual combinations of satin and wool fabric, is quite indispensable. Emphasizing natural charm and portraying all that is lovely in materials, trimmings and harmonious color, these Gowns will satisfy the most discriminating taste.

All of These Frocks Come in Navy, Brown and Black

Left—Circular discs of solid beading in various lovely colors trim a Gown of Crepe Georgette, \$110. Second to Left—Duvelyn Gown has paneled skirt over satin drop, elaborately embroidered, \$97.50. Center—Tricotine makes this redingote Gown, beaded in square designs, with a satin drop, \$95. Right—A Gown of crepe meteor is attractive with embroidered dots and drop beads trimming it. \$65.

Second from Right—A Canton crepe Gown is elaborately beaded in conventional design, \$105. Women's Dresses—Sixth Floor, South, State.

For sun or breakfast room a quaint old fashioned bowl filled with very tempting looking artificial fruits in their natural colors is attractive. Second Floor, North, Wabash.

NATURAL SABLE SCARFS

FROM the Hudson Bay country, far to the north beyond Peace River, come these Sables. Fur of enduring charm, their very name spells unquestionable beauty.

Because we were able recently to purchase a trader's entire lot of exquisite, natural dark, silky skins, we offer them at a price far below any of recent years. One-skin Scarfs, \$97.50; two-skin Scarfs, \$190.

Sixth Floor, North, Wabash

A Special Selling of Wash Satin

36 inches \$1.95 Yard

SATIN has always been a silk of beauty and now, with its added quality of laundering, new ways of using it are constantly being discovered. Many women who have proved the practicality of Wash Satin for undergarments attest the almost unequalled service it gives, retaining its lustre and firmness as long as it lasts.

There Are Extensive Assortments of White, Pink and Flesh, as Well as of Many Other Colors.

This is an excellent quality of good weight and dependability, suitable for blouses and frocks, as well as undergarments, and the many other uses to which it can be put. The price is so unusual as to make it well worth while to buy in quantities during this event.

U. S. AGENT TELLS EUROPE TO CARE FOR ITS NEEDS

BRUSSELS, Sept. 28.—(By the Associated Press.)—At the world financial conference this afternoon President Ador said that some of the delegates had expressed a desire that Roland W. Boyden, American representative, be heard out of turn. The galleries were filled as Mr. Boyden walked to the speakers' stand.

His remarks were awaited with the greatest curiosity. Startled expressions were soon on the faces of some of the delegates as Mr. Boyden made it clear that no further government help should be expected from the United States.

Mr. Boyden said it was not easy for the United States to participate in the

conference, because it was difficult for the administration to make known its attitude on the questions involved in the midst of a presidential campaign.

"I have been particularly mentioned with respect to expressions of opinion, and I want it to be understood I am giving my own personal views without in any sense representing my government," asserted Mr. Boyden.

He then declared that he had been asked whether the conference would have any definite results. The question, he thought, might be answered in the affirmative.

As to the possibility for further aid and credit from America to the European states, Mr. Boyden referred the delegates to the letter of former Secretary of the Treasury Glass on that subject, which is embodied in the American report to the conference. The letter, added Mr. Boyden, also represented President Wilson's view.

That the French peasant farmer has "come back," was indicated by M. Devenol, France, who declared that France by taxation is taking care of the needs of its budget, that the French wheat crop probably would produce an exportable surplus of 100,000,000 bushels this year.

CONGRESSMEN IN MEXICO MAY BE TRIED AS REDS

Mexico City, Sept. 28.—Members of the chamber of deputies who participated in Sunday's demonstration, during which incendiary addresses were made from the national palace balcony, may be brought before a grand jury, according to a decision reached at a secret session of the senate yesterday afternoon.

The senate also adopted resolutions demanding that all government employees guilty of participating in the demonstration be dismissed from office. A statement relative to the incident was issued from the presidential of-

fices last night. It declared that, although the original purposes of the manifestation were perfectly justifiable, agitators seized their opportunity to misdirect the demonstration.

The provisional president offered every guarantee to Mexico City.

Deny Radical Outbreak.
San Antonio, Tex., Sept. 28.—Denial that there has been a bolshevik or communist outbreak in Mexico City, is contained in an official dispatch from Dr. Cuthberto Hidalgo, Mexican foreign minister, to Consul Beltran.

I. W. W. Visit Mexico City.
Washington, D. C., Sept. 28.—A delegation of I. W. W. representatives is in Mexico City conferring with labor leaders preliminary to a national campaign of propaganda, according to advices received here today from the Mexican capital.

George E. Davis, who heads the delegation, is quoted as stating that he and his colleagues had come to Mexico for the sole purpose of "countering the propaganda work of the American Federation of Labor representatives during their recent stay in the capital."

CHEMIST FINDS POISON IN BODY OF J. C. DENTON

Los Angeles, Cal., Sept. 28.—(Special.)—Evidence smashing previous theories of the mystery murder of Jacob C. Denton was disclosed today when Chief Deputy District Attorney W. C. Doran announced the discovery of a witness who saw Denton alive between June 4 and 10, and Prof. Arthur Maas, making a chemical analysis to ascertain if poison was used in the slaying, found primary indications of a death dealing drug.

Upsetting the belief that June 3 was the last day Denton was seen alive, D. W. Hall, a mining engineer, describes meeting Denton on the street in Los Angeles some time between June 4 and 10.

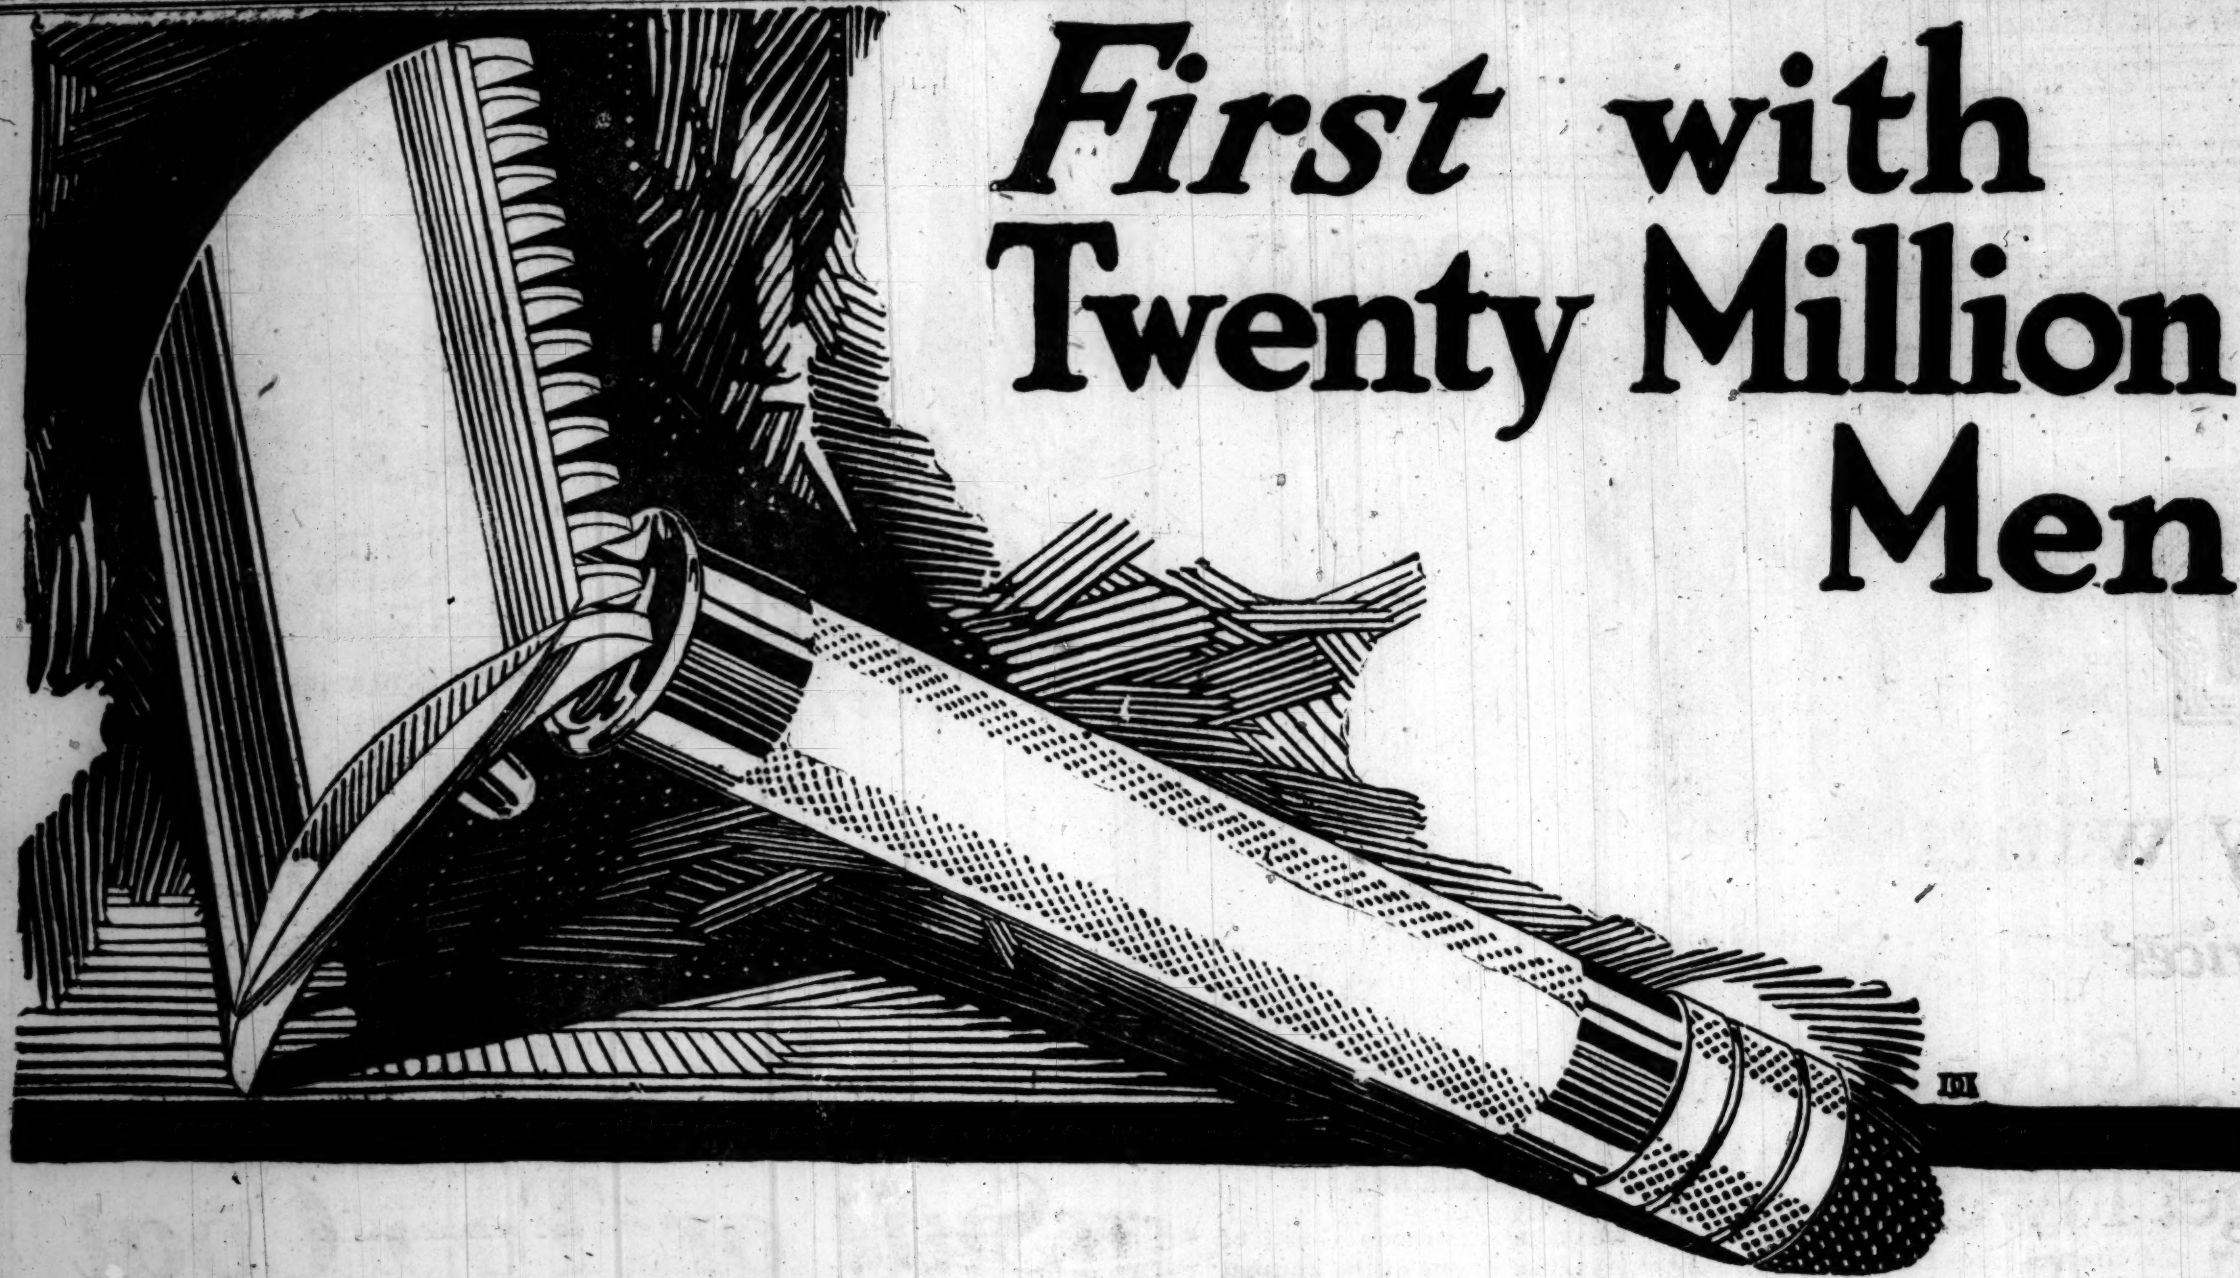

Coupled with this startling disclosure, Doran announced further that the woman who acted as housekeeper for Mrs. R. C. Peete, the "enigma woman" of the case, at the time Denton disappeared, had made a complete statement to him.

Second Division to Have Big Victory Anniversary

Three thousand 2d division men of Illinois will meet next Monday, Oct. 4, at the Hotel La Salle, in commemoration of the battle of Blanc Mont Ridge. It will be two years to a day since the division started its famous operation against the Germans, forcing their retreat at Reims and their withdrawal from Cambrai and San Quentin. The success of the operation was commended by Marshal Foch. There will be a program of vaudeville. The wounded at Fort Sheridan and hospital 47, Drexel boulevard, will attend.

Arrest Man in Michigan for Train Robbery Here

Clarence O'Malley, driver of an automobile truck which crashed into a light post at Clybourn and Southport avenues last Sunday, seriously injuring three men, was arrested in Battle Creek, Mich., yesterday as a suspect in connection with the robbing of the Illinois Central mail train near Pullman last Friday night. He is being detained there pending a complete investigation.

First with Twenty Million Men

FOR centuries, men waited for the Gillette.

Shaving—or trying to shave—with every kind of razor ever invented.

And never finding one that suited them *exactly* and *absolutely* and *universally*—until the Gillette was created.

Today, twenty million men of all races, all nations—of every color of skin and type of feature—men with heavy beards and light beards—with tender skins and tough

skins—men who never shaved before and men who had shaved with almost every conceivable kind of a razor—are finding in the Gillette the shaving qualities that meet *each one* of their individual shaving requirements.

The Gillette is the only razor that has gone *all over the world*—that has changed the shaving habits of men everywhere. Adjustable *instantly* to every type of beard and condition of skin.

Let one of the 250,000 Gillette Dealers in this country show you why it is *first* with twenty million men.

PETTY QUAR OF LABOR T BUILDING

BY ARTHUR M. E.

The less work, the more money to be the condition of the industry as activities where \$150,000,000 worth of work is shelved, approach a builders report labor trouble caused during the last month has seen a great slump in their employment.

Although competition for resulted in greater per-man and individual efficiency, the Old Man of the shoulders of the industry the less work there is the unions fight over which do it. Jurisdictional bickerings w

PETTY QUARRELS OF LABOR TIE UP BUILDING WORK

BY ARTHUR M. EVANS.

The less work, the more strikes, seems to be the condition in the building industry as activities in Chicago, where \$150,000,000 worth of projects are shelved, approach a standstill. Builders report labor troubles have increased during the last month, which has seen a great slump in construction employment.

Although competition for jobs has resulted in greater per-man-hour output and individual efficiency has been climbing, the Old Man of the Sea, jurisdictional disputes, still straddles the shoulders of the industry. Apparently the less work there is the harder the unions fight over which one shall do it. Jurisdictional bickerings were picked

yesterday by the steering committee of the National Building and Construction Congress as one of the first items it will consider in starting machinery for a nation wide scientific study of conditions in the industry.

Union Leaders See the Light.

Following the warning of John H. Donlin, president of the building trades department of the American Federation of Labor, that unless the unions ceased their internal fighting they cannot survive, labor leaders of vision also began to hammer home to the crafts the need for their strong support of the National Board of Awards, which was created last year for the purpose of adjusting jurisdictional squabbles without having work tied up by walkouts.

Meanwhile the trade pointed to some of the trivial pretexts on which men recently have struck. For instance, on the north side, a man who is erecting a large apartment building decided not to install the lighting fixtures, such as dining room lamp and living room cluster, until everything was finished and rented, so the tenants might pick their own styles.

The delegate of the fixture men got suspicious and cried that the owner was trying to give the tenants a chance to employ somebody else. He called out his men and got the hoisting engineer to quit work. The steamfitters

pulled up the radiators by block and tackle and were accused of "scabbing" on the host men. Then they walked out.

Demand Pay While on Strike.

The carpenters are back on the job at the new Drake hotel on the lake shore. This was a case of striking to collect pay for a strike. Early last month the carpenters walked out because the contractor had installed a band saw to cut the trim, thus saving time and labor. The device was removed. The men demanded pay for "waiting time"—they wanted full wages for the hours on which they had been out on strike. It was refused and a strike to collect pay for the original strike ensued.

About 120 carpenters were out six or seven weeks and their absence retarded the work of twenty-one other trades employed on the job. Finally a referee decided the builder had a perfect right to use any tool he wanted to and the men were ordered back.

Other Petty Squabbles.

The National Board of Awards made public yesterday some of its decisions in jurisdictional disputes. To the layman they are illuminating as showing the pettiness of some of the squabbles that have aided in tying the industry into a double bowknot.

One dispute that tied up a building was over whether vitrolite and other

opaque glass should be set by the bricklayers, masons, and plasterers, or whether the work belonged to the painters, decorators, and paperhangers.

It was awarded to the former group.

Another building was tied up by a controversy between the bricklayers and the electrical workers over who should cut the grooves and channels in brick, tile, and masonry. Both claimed it was their job. The board held where the channels are not larger than two by two inches, or do not require more than eight hours' continuous time, the electricians may do the job. Otherwise it goes to the bricklayers.

Painters and Plumbers Row.

More than one contractor had his work held up by quarrels between the painters and plumbers over which should do the bronzing and painting of radiators and pipe connections. Both insisted it was part of their work. The board told the plumbers to lay off.

Another dispute which has worried many a builder has been over the laying of cork tiling. Both the carpenters and the bricklayers claimed the work. The board decided where the cork is laid in any composition of sand and Portland cement, the job belongs to the bricklayers. If it is laid in a composition of glue, or if nails or brads are used, it goes to the carpenters.

Rapid Progress in Construction of Rosehill Mausoleum Addition

A visit to this magnificent building should readily convince one of the advantages of this modernized custom of burial.

The far-sighted business man prepares for every emergency in life. No doubt, upon investigation, you will wish to consider this most important subject.

The building is now under roof and every effort is being made to finish the interior at an early date.

A representative will be at the Cemetery each day to show visitors through the Mausoleum and give further details.

Trust funds now aggregate over \$1,400,000.00, and are increasing daily, which assures permanent upkeep of Rosehill Cemetery.

1617 First Nat'l Bank Bldg. Rosehill Cemetery Company 5800 Ravenswood Ave. Edgewater 714
Randolph 5340

We have found from experience that no building can long endure severe climatic changes without provision for heating, ventilating and proper care.

These features have been provided for in our Mausoleum, the perpetual maintenance of which is safeguarded by a Trust Fund exceeding \$125,000.00.

As the number of rooms available is limited an early selection is advisable. In the present building there remain but few family sections and single crypts.

THE ONLY COMMUNITY
MAUSOLEUM IN CHICAGO

ANOTHER BOSTON TRUST COMPANY ORDERED CLOSED

Boston, Mass., Sept. 28.—[Special.]—Another trust company—the Fidelity—was closed by the state banking commissioner today. This action brought a quick announcement from the Boston clearing house committee that steps would be taken to prevent further trouble among Boston banks by guaranteeing to assist all solvent institutions.

While the head of the committee, President Beale of the Second National bank, was quoted as declaring there was no crisis, directors of the Fidelity told of their ineffectual efforts last night to prevent the closing and referred to the "panicky conditions prevailing in local banking circles."

Blame the Depositors.
Notice was posted of the closing of the Fidelity this morning at the opening hour for business. The cause given was "heavy withdrawals of deposits, and slow and doubtful loans."

The Fidelity was one of the three trust companies—Fidelity, Tremont and Dorchester—that invoked the ninety day law on withdrawal of saving deposits to stay runs. President McKnight of the Massachusetts senate is vice president of the institution. He and other officers of the trust company were summoned to the state bank commissioner's office last night.

They asserted the institution was solvent and offered to pledge their entire personal resources if it could be allowed to remain open. Commissioner Allen, however, would not consent.

State Money in the Bank.
Boston had no money in the Fidelity when it was closed this morning, al-

DANIEL L. CRUCE RECOVERING FROM PARALYSIS ATTACK

Daniel L. Cruce, the attorney who has represented the labor inter-

ests in some of the most important Chicago trials during the last seventeen years, is recovering from an attack of paralysis that has confined him to his home since July 28, it was learned last night.

He first attracted attention in 1903, when he became a candidate for mayor on the labor ticket. He was defeated, but DANIEL L. CRUCE, his campaign brought him into touch with many leaders.

Mr. Cruce is under the care of Dr. A. A. O'Neal, who says his patient will be able to leave his home in the course of a few weeks.

though his deposit there last December totaled \$500,000. The state, however, was not so fortunate, as it has close on to \$50,000 tied up in the Fidelity, on top of the hundreds of thousands tied up in the closed Hanover Trust, Prudential, and Commercial.

Gov. Coolidge issued a statement today saying:

"From all I can hear the banking situation is quieting down. I understand deposit withdrawals have practically stopped. The second thought of the people is in favor of coming to the rescue of the situation. The disquieting rumors have ceased and the ordinary confidence has been re-

U. S. OBJECTS TO PACKERS' PLAN TO SELL YARDS

(BY A STAFF CORRESPONDENT.)

Washington, D. C., Sept. 28.—[Special.]—Objections to the packers' plan for the disposal of their interests in stock yards were filed by the department of justice today in the supreme court of the District of Columbia.

The department of justice enumerates six specific objections to the scheme for the formation of a holding company headed by P. H. Prince & Co. of Boston for the purchase of controlling interests in practically all the stock yards in the United States.

The objections, in brief, are as follows: That the formation of such a holding company would in itself be a combination in violation of anti-trust laws. That those controlling the holding company would be able to manipulate sales and traffic conditions at the various markets.

That the plan is obscure and indefinite in several particulars.

That the big packers should not be allowed to retain approximately 50 per cent of the stock in the holding company, as proposed.

That the former connection of P. H. Prince & Co. with the ownership of the Chicago stock yards makes that company unsatisfactory.

That the so-called plan for a holding company is not in such form as to insure the court that if approved it would be carried into effect.

FITZGERALDS TO WELCOME O'DONNELL.
Attorney Andrew J. O'Donnell was elected grand chancellor of the Order of Pythias of Illinois in their convention at Springfield, and Chicago knights and the Pythian Sisters will welcome him home at Medinah temple next Saturday evening. It is expected that 10,000 Pythians will participate.

Leaves Disposal of His \$500,000 Estate to Kin

Confidence that Mrs. Ella Pearson, his widow, and Mrs. Luella Pearson Molloy, his daughter, would carry out his wishes without specific instructions, is expressed by the late Eugene H. Pearson in his will.

The instrument, admitted to probate yesterday, disposes of an estate valued at \$500,000. It states that Mr. Pearson gave his wife and daughter a list of charitable institutions and asked them to give certain amounts to those institutions not needed for their support.

Mr. Pearson was at one time vice president of the Globe National bank, which later became part of the Commercial National bank. The widow and daughter live at 325 Fullerton parkway.

JAM 5TH AVENUE AT FUNERAL OF OLIVE THOMAS

New York, Sept. 28.—[Special.]—Fifty policemen on foot and three mounted men were busy keeping Fifth avenue and the side streets near St. Thomas' Episcopal church clear this morning during the funeral services of Olive Thomas, movie actress and wife of Jack Pickford.

Fifteen thousand persons crowded the sidewalks. Several women fainted and others had their dresses torn. Two thousand friends filled the church, where the body had rested since it arrived on the Mauretania on Saturday. The body lay in the nave in a white casket, heavily mounted with silver and covered with orchids.

Women With Money

We act as experts in the care of money. We invest it, collect the income, attend to all business details.

This service is particularly valuable to women with money or estates.

We perform all trust functions in an expert way. We act as trustee under wills.

Write for our book which explains these services. They would be helpful to thousands who as yet don't use them.

Safety first—for your teeth!

Chicago people, is your dentifrice safe?

Is it smooth, to polish thoroughly but not to scratch? If you doubt it, sweep your tongue over the teeth after brushing and before rinsing your mouth. If you feel any grit, beware!

Colgate's polishes without grit.

Colgate's Ribbon Dental Cream has been known to and used by the dental profession for many years. They know, and you know the standing and reputation of the makers Colgate's is recommended by more dentists than any other dentifrice. Isn't that enough for you?

Ask your own dentist about it—and try the "tongue-and-grit test" yourself

FREE

Send for trial size tube to Colgate & Co., Department N. P., 139 Fulton Street, New York. Large size tube at your dealer's for 25c. Why pay more?

Safe to use every day—

Yellow Cab

Proves Itself by Its Action

When you are riding about town in taxi-cabs, we would like to have you notice details and make comparisons. You'll find it interesting.

If a cab is filthy it will look filthy and smell filthy. If it isn't washed and scrubbed regularly, your nose will know. If it is poorly kept up, you will detect it involuntarily.

If the windows rattle, you will hear them. If the driver is unclean in his appearance, you will see it. If he is reckless, you will not only see it but feel it. If he hasn't chains on in slippery weather, he won't have to write you a letter about it.

If the driver is surly or independently arrogant, you will know instantly that you are not riding in a YELLOW CAB. And if you find any one of the things mentioned above, you will once more know that you are in somebody else's cab—not ours.

Maintenance costs a lot of money. Keeping the cab up to standard in every detail, is extremely expensive. That's why most cabs ignore it. Some can't afford it. Others think they can't. But there is not one little detail of the YELLOW CAB that is not inspected at least once every 24 hours. And cabs out of order, can't go on duty.

This attention to detail—this rigid maintenance—is part of the YELLOW CAB'S organized responsibility. It costs us about half a million dollars a year. But it's worth the money to be the best and the cleanest and the most efficient.

What do you think about it?

This is Ad No. 61—Watch for No. 62

No pull, no scrape—a fine, keen edge for every shave

No skill necessary

No skill in stropping is needed to renew the fine keen edge of the AutoStrop Razor blade. Just slip the strop through the razor head and pass the razor back and forth along the strop. You don't have to take the razor apart nor even remove the blade.

Like the leaf of a book

The AutoStrop Razor blade opens for cleaning like the leaf of a book. To clean, simply rinse and dry. No parts to unscrew—nothing to take apart and reassemble. The same lever that releases the blade also adjusts it for close, medium or light shaving.

ONLY a dulled or dulling razor blade pulls and scrapes. If your razor drags, if it irritates the skin, you can be sure of one thing—you are using a blade that has lost its new, sharp edge.

Do you know why shaving dulls a razor edge so quickly? Look at any razor blade under a microscope and you will see hundreds of tiny saw teeth, invisible to the naked eye. When these teeth are in perfect alignment the blade is sharp. But during the very first shave your beard bends these tiny teeth out of line—makes them *irregular*.

These *irregular* teeth catch in your beard, pull on the hair follicles, and—if you bear down hard to make the blade cut through—scrape the skin. That's what makes shaving so annoying, so unpleasant.

With most safety razors there is no way to smooth the minute teeth back into line. The original smooth, fine edge of the blade grows rougher with every shave. Too many men accept the pull and scrape of fast dulling blades as inevitable.

Yet the discomfort of a blade that pulls and scrapes can be eliminated if you use the AutoStrop Razor—the only safety razor that stropps its own blades.

Built right into the frame of the AutoStrop Razor is a remarkable self-stropping device, simple and efficient, which renews the fine, keen edge of the AutoStrop blade day after day.

A safety razor and stropping device combined

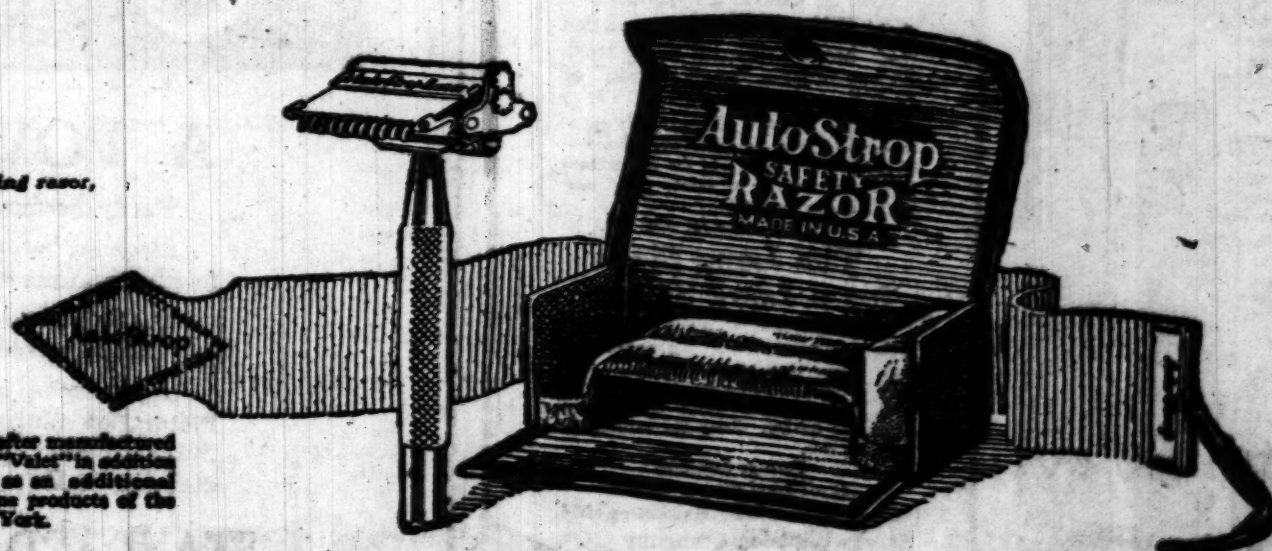

You don't have to take the razor apart nor even remove the blade. Insert the strop through the razor head, and slide the razor to and fro along the strop. The blade turns over and slaps down on the strop at the end of each stroke just as the blade of a straight razor does in the hands of a skillful barber. In 10 seconds you have a new, sharp shaving edge! 500 comfortable shaves are *guaranteed* from each dozen AutoStrop blades!

For cleaning, the blade of the AutoStrop Razor opens like the leaf of a book. Rinse and dry—that's all there is to it. The same lever that releases the blade also adjusts it for close, medium or light shaving.

In fact the whole AutoStrop Razor is so simply, so efficiently built that it sharpens, shaves and cleans without taking the razor apart or removing the blade. No other safety razor offers this advantage.

Don't put up any longer with the pull and scrape of unstropped blades. Begin tomorrow to get the comfort of a new, sharp shaving edge every morning. Ask your dealer about the AutoStrop Razor trial plan.

Standard set consists of: silver-plated, self-stropping razor, selected leather strop, twelve blades, all in neat leather case.

On razors, strops, blades, etc., hereafter manufactured by us we shall apply the trademark "AutoStrop" in addition to the trade mark "Valer" as an additional indication that they are the genuine products of the AutoStrop Safety Razor Co., New York.

AutoStrop Razor — sharpens itself

BIG 10 TO MAKE A SPECIALTY OF PASSING ATTACK

BY WALTER ECKERSALL.

That the leading eleven in the mid-west will employ an offense in which the forward pass is one of the main factors, is shown by the number of certain ends as members of the various teams. Some of these men were efficient last season in picking the oval out of the air and should be better this year.

Illinois, 1919 "Big Ten" champion, has Carson, who was considered one of the best in the section at receiving passes a year ago. He is tall, rangy, and has an easy knack of getting out into the open to receive passes. In addition, he is fast enough to outrun the average defensive players, thereby beating them to the ball. Being a basketball player, he can catch the oval in almost any position, and it is a certainty Coach Zuppke will build a number of plays around him.

Michigan Flanks Well Protected. At Michigan, Coach Yost has two veteran ends in Dunn and Rye, both clever in receiving long throws. At the start of the Ohio State-Michigan game last year, Dunn missed a forward pass by inches behind the Buckeye goal line. If the thrower had delayed a fraction of a second, Dunn would have caught the ball and scored a touchdown. Rye showed good form in this department in the early games, but the accident in the Ohio game kept him out of the remaining contests. Like Zuppke, the Wolverine mentor is certain to use these players on the receiving end of passes.

Capt. Weston will be Wisconsin's best bet in receiving long passes. The Badger was rated one of the best wing players in the west last year, and his ability to pick the ball out of the air made him a marked man. With such ability, Coach John Richards is certain to work him into a number of formations.

Two Good Maroons. Chicago will have two ends skilled in receiving passes. Hinkle and Halladay have shown their worth in this department, and Stagg is not the mentor to overlook their ability. Hinkle is a basketball player, and like Carson of Illinois can gather in the oval with one hand if it throws anywhere near him.

Although Ohio State has not the star ends of other teams, it boasts a great passer in Pete Stuchcomb. This player was overhauled by Chick Harley last season, but will be the most important cog in the Buckeye machine this year. In addition to being an accurate passer, Stuchcomb knows when to pass the oval and when to run with it. Coach Wiley is fortunate in having a man who can do all the stunts that Harley did, and nearly as well.

Iowa has a pair of great passers in the Devine brothers, and Coach Jones is certain to have men who can receive the throws. Indiana, who has shown the art of catching the pass last year and alone was responsible for numerous Hawkeye gains.

Gophers to Develop Passes. Coach Williams at Minnesota undoubtedly will develop a combination similar to the Wyman to Vaston passes of a few years back, while Coach Stuehm of Indiana has a number of veterans who have shown their worth in passing the oval accurately.

Coach McDevitt of Northwestern undoubtedly will work a long forward pass attack, as he has a passer in Blackwood who can hurl the ball half the length of the gridiron. Of course, such passes are of no account unless receivers can get down under them, but the Purple mentor undoubtedly will evolve formations of the delayed type to enable the ends and backs to get down the field.

First "Big Ten" Game Saturday. With the exception of the Iowa-Indiana game on Saturday, other conference eleven games go into action will not show much in the way of a forward pass attack. The pet plays will be held under cover for later games, but in the meantime they will be polished in scrimmage drills.

HUFF CONDEMNS SPORT GAMBLING. Champaign, Ill., Sept. 28.—[Special.]—Speaking before the Champaign Rotary club, George Huff, director of athletics at the University of Illinois, condemned betting on college sports. "The influence of the community should be exerted to stop gambling on high school and college sports," said Mr. Huff. "The growth of betting on college sports is a source of anxiety to their well wishers. You can see what is happening to organized baseball. Gambling killed horse racing. I firmly believe that unless checked betting may prove the death of college and high school sports."

U. HIGH WINS AT SOCCER. University High school beat the Ryan Park 3 to 2, on the Midway field, in a fast game which inaugurated the local interscholastic soccer season.

INDIANS ADD TO LEAD BY TAKING 9 TO 5 THRILLER

SEWELL CAN PLAY

BROOKLYN, N. Y., Sept. 28.—(Per-
mission for the Cleveland American
league pennant this afternoon, de-
feating St. Louis, 9 to 5, and in-
creasing the lead over Chicago to a
full game.

It was the third consecutive defeat
administered to St. Louis by the
contenders, who launched their at-
tack in the seventh.
Earl Rayne led the assault, the
leading pitcher scoring three runs
and driving in two.

Rayne's thirty-first victory Bagby
lost this year, and although hit
only, he managed to keep the blows
except in two innings.

St. Louis' record hit is Homer,
who presented George Stiller
with a silver service as a mark of
honored for his work and the
other Brown responded in the sixth
with a home run to the pa-
king in right field for his 24th hit
in the campaign, establishing a new
league record to supplant
that of Ty Cobb, who made 248 safe-
ties in 1911. In the eighth inning
he made it 2-0 with a long triple.
Cleveland concludes its series here
tomorrow.

Pennant Dope

CLEVELAND virtually was as-
sured of the American league
pennant yesterday by the sus-
pension of the Chicago players
in connection with the alleged fix-
ing of games in the world's series last
year. The Indians increased their lead
over the White Sox to a full game, by
defeating St. Louis and have one game
to play with St. Louis and four with
Detroit.

With most of their regulars de-
parted, the White Sox, who rested yesterday,
will be forced to put a patched up team
in the field Friday for their series of
three games with St. Louis. Cleveland
must win one game more than the Sox
to retain first place.

COMISH NAMES MEN OF 3 CLUBS ELIGIBLE FOR WORLD'S SERIES

UMPS ARE NAMED

THE national commission named
Klem and O'Day from the Na-
tional league and Connolly and
Dinnison from the American
league as the umpires for the world's
series.

At yesterday's session between B. B.
Johnston, president of the American
league; John A. Heydler, president of
the National league; and Secretary John
Bruce of the national commission, ac-
cording to the national baseball com-
mission, players of the Brooklyn team
and of both Cleveland and Chicago in the
American league were ruled eligible for
the world series. The seven suspended
Sox players will not compete if Chi-
cago wins.

Following are the Brooklyn players
named:
Lew Lugo, Harold B. Elliott, Duffell
H. Graham, Thomas H. Griffith, James H.
Kane, John J. Keady, Edward J. Ko-
nietz, Emanuel G. Krueger, William G. La-
man, William F. McCabe, Albert L. Ma-
naster, Richard W. Marquardt, John J. Mil-
lins, Ode Miller, Clarence E. Mitchell, George B.
Morse, H. W. Murray, John J. Neff, Ives
M. Olson, Edward J. Pfeiffer, Raymond
Schmidt, Edward J. Smith, James W. Tay-
lor, Charles W. Ward, Jack W. West, and
Wilbert Robinson, manager.

Here Are Sox Eligibles.
If Chicago wins the American league
championship, the following players
will be allowed to play in the world's
series:
Eddie Collins, John Collins, Big Falk, Urban
Faber, C. E. Rode, C. J. Jansett, Ted Jourdan,
Richard Kerr, Harold Leno, Harry Leibold, Her-
vey McMillan, Eddie Murphy, Ray Schalk,
Charles F. Spill, William G. Thomas, man-
ager.

The following Cleveland players were
listed:
James G. Barker, George Burns, W. B. Clark,
Ray B. Caldwell, Stanley Cavendish, G. K.
Ellison, Joseph Evans, W. L. Gardner, J. G.
Granger, Charles S. Jamison, W. S. Johnston,
Harry Lunde, Walter Malt, Gus Norton,
E. E. Numanaker, Steve F. O'Neill, Tris
Speaker, manager; Elmer J. Smith, C. D.
Thomas, George Uhl, William Wambagans,
and Joe Wood.

Pick Two Scorers.
The commission selected William
Harridge, representing the American
league, and Charles Evans of the Na-
tional to arrange for the series. J. E.
Taylor Spink of St. Louis and Joseph
M. McCready of Philadelphia, secre-
tary of the Baseball Writers' Associa-
tion of America, were chosen for two
of the official scorers. Local chapters
of the Baseball Writers' association in
the cities where the games are
played will select the other two official
scorers, and, in case of a dispute over
plays, the majority will rule.

Umpires to officiate at the series will
not be announced until later, but the
commission granted the umpires' plea
for more pay for the series work.

Pay Players in New Way.
The commission decided that the
clubs in the world's series shall appoint
a committee on each club to decide
how the prize money shall be distrib-
uted among the players. After this
has been agreed upon, the list must be
submitted to the commission, and
Secretary Bruce will mail individual
checks to the players, according to the
list as submitted by the respective com-
mittees.

These provisions wound up the pre-
liminary plans for the big series and
the commission adjourned.

In the Wake of the News

BASEBALL'S BLACK DAY.
INDICTMENT for conspiracy of
eight White Sox baseball players
by the grand jury after stories of
the world's series of 1919 had been
told under oath will come as a stag-
gering blow to those fans who have be-
lieved implicitly in the honesty of base-
ball, despite the rumors of last fall.
Even those of us who were leath to
believe the ugly stories, but were forced
reluctantly to a conviction the world's
series was "wrong" months before the
grand jury investigation, would not
have believed such conditions possible.

At last accounts no suspicion had at-
tached to the annual roque tournament.

GLEASON WELCOMES WRECK OF TEAM FOR GOOD OF BASEBALL

Manager Gleason of the White Sox
was greatly relieved that the true
facts of the world's series of 1919 had
come to light, and expressed the hope
that the wrecking of his pennant
chances would be beneficial to baseball.
"I am glad this thing has come to a
head and wound up the way it did,"
Gleason said. "This, of course, was
an awful blow to me. I have felt for
a long time that some of my players
were not going at the speed they
should be going. We will go out and
play ball with the honest members
we have left, and we still must not
be considered out of the pennant race."
"We are going to try to finish the
season without another defeat, regard-
less of what transpired today."

Fair Team Still Left.
The Sox manager will be able to op-
pose a fairly strong team to the
Browns, in spite of the suspension of
seven regulars, although it will not be
one that could hope to win a world's
championship even if the luck of the
game should enable it to nose out
Cleveland for the American league pen-
nant.

Here's Makeshift Lineup.
For the two vacancies on the left
side of the diamond Gleason has
Clellan, who is capable of playing
either third or short, and Eddie Mur-
phy, who can be used at third in a
pinch.

In the outfield the two holes left by
Felsch and Jackson can be filled by
using Leibold, Strunk, and John Col-
lins, with Jordan filling in at first
base in place of Collins.

The catching staff is intact and for
pitchers Gleason has left Kerr, Faber,
Wilkinson, and Hodge, who can be
depended on to give the Browns an
argument.

Tearney to Arrange Series
for Major Minors' Title
President Tearney of the Western
and Three league today was
chosen chairman of the commission which
will have charge of the minor league
championship series between the St.
Paul club of the American association
and Baltimore, pennant winner of the
International league.

GRAINS ERRATIC; HAVE EARLY DIP; RALLY AT CLOSE

BY CHARLES D. MICHAELS.

Grains made their highest prices at the start and the lowest shortly afterward. Prices fluctuated rapidly within a relatively wide range, but short covering made a good rally toward the last and the finish was well toward the top. Wheat and corn closed 1/2% lower, while oats were off 1/4%, and barley 1/8%. Rye was 1/4% lower on September and 1/2% higher on December.

Heavy selling by strong commission houses headed by Blair, Alerst & Leland and some selling directed to Liverpool forced December wheat off 1/4% to \$1.13, from which figure it rallied to \$1.14 on buying by buyers with seaboard connections and short covering.

Trade was fairly liberal and interest in the grain market was increasing. Early reports from the seaboard indicated export demand was slow, but later sales of around 100,000 bu were reported.

Corn traders showed a disposition to even up trades pending disposition of the September. Prices changed very rapidly, with a rush of buying at the start on private predictions of frost over the corn belt. As soon as the buying ceased December dropped 1/2%, but the greater part of the loss was recovered. Liberal selling orders to buy were uncovered under the 1/4% which absorbed the surplus in the pit. A feature was the buying of December and selling of May around to differences to close spreads made around even figures; December gained 1/4% on the May.

Cash prices followed the September with little change in the basis. Reports from seaboard as to Argentine grain were bearish.

September oats closed at 1/4% under the December, or better than a carrying charge difference, due to lack of confidence on the part of buyers. There was fair buying of deferred deliveries at rates by commission houses, but the September had few friends even at the abnormal difference.

Rye showed a firmer undertone with some buying of the December credited to eastern account. A sale of 100,000 bu was made to the seaboard and Duluth reported a good demand. No. 3 on spot sold at September price.

Barley sold rather slowly, with the undercurrent easy.

Liquidation in Provisions.

Liquidation due to a break of 50c to 75c in hogs and poor support carried prices down and made a close at the inside, with losses of \$64 1/2% on land, 40c on ribs and \$1 1/2% on pork. Prices follow:

CASH GRAIN NEWS

Domestic shipping sales of grain at Chicago Tuesday were 5,000 bu. wheat, 50,000 bu. corn and 140,000 bu. oats. Wheat was loaded 335,000 bu. corn, 135,000 bu. rye, and 90,000 bu. wheat yesterday, and all told 1,300,000 bu. corn and rye will be loaded out of Chicago during the next week.

While considerable export business was under way in wheat, it was done under cover and the trade did not get the figures until late in the day, when 500,000 bu. were said to have been sold in all positions. Last week 12,000 to 14,000 tons of flour were sold for shipment to the continent. Local sales to the seaboard were 100,000 bu. part No. 3 hard, for shipment by Oct. 15 at 32c over December, track Baltimore, and some to Buffalo.

No. 1 red on spot sold at 20c over and No. 1 hard at 13c to 13 1/2c over December. St. Louis was 1c to 1c lower, Kansas City, unchanged to 1c lower, and Omaha unchanged to 1c higher. A sale of 100,000 bu. Canadian wheat was made to Milwaukee and two cargoes are now on the way to Toledo mills.

Barley interest absorbed the offerings of contract corn under September prices for No. 2 mixed and 1/4c over for yellow and No. 3 mixed. St. Louis was unchanged to 1/4c lower, Kansas City, 1/4c lower and Omaha, 1/4c lower. Cash oats were unchanged to 1/4c lower. Local receipts, 607 cars and 123 cars oats.

GRAINS IN ALL MARKETS

Only two days remain of September and it is not expected there will be a big advance in corn or rye in the winding up of trading for this month's delivery. The way leading to the market is likely to be enough on the market to supply all buyers. September corn was 20c over October and nearly 31c over December. In rye September was 35c over December, and in oats September was 35c over December.

There is a more muted sentiment among local operators. There is less disposition on the part of the average trader to press the selling side of December corn and oats, and there is fair selling of December and buying of May on the theory they will sell at wider differences. Many operators are bearish on wheat, but the way it has reached the last two days has tended to check aggressive pressure from local interests, as they see too much being sold for export.

Contract stocks of corn here are 438,000 bu. an increase of 297,000 bu. last week. Contract stocks of wheat are 1,000,000 bu. an increase of 208,000 bu. for the week.

WORLD'S GRAIN MARKET NEWS

Two cargoes of Argentine corn arrived at New York yesterday, making total stocks there 1,600,000 bu., while 500,000 bu. are at and storage room is scarce. Bulk of the grain is reported as of choice quality. Sales of Argentine corn were made in New York Monday at 50c, a. h. domestic.

A scarcity of choice spring wheat is developing in the American northwest. G. M. Lewis & Co. wired Clemen, Curly & Co. that supplies would have to be supplemented by liberal purchases of Canadian.

New York reported 14,000 tons of flour sold to Germany.

ORIENT BECKONS SAM THE TRADER, BANK BOOK SAYS

The greatest opportunities for American foreign trade in the future lie in the Orient rather than in Europe, this is the conclusion expressed in a book, "Trading with the Far East," which has just been issued by the Irving National bank of New York. The book is a compilation of information on the commercial possibilities of the countries of the Orient from the standpoint of American importers and exporters are given.

"America's commerce with the far east has increased \$2,000,000,000 in the past year," says the book. "The figures furnish a ground for the belief that in the future years the American trade in the Orient will be a more important factor in the nation's commerce than it is at the beginning of a new decade. The book is a compilation of information on the commercial possibilities of the countries of the Orient from the standpoint of American importers and exporters are given."

China, the book says, "The country is the beginning of an industrial development of vast possibilities. In the past few years she must have roads, bridges, waterways, telegraphs, and other modern facilities. Her coal and iron must be brought out of the ground and methods of transportation devised that they may be utilized. The vast quantities of raw materials, factory and mining equipment, and public utilities, and to obtain these outside financial aid. Her rising power must be developed before she can become a great nation."

Shift in Dividends. The directors of the First National bank of Chicago yesterday voted to increase the dividend on the common stock from 10 to 12 percent in payment of quarterly dividend of 3 percent by the First National and Savings bank, whose stock is held in trust for First National National. This shift in dividends will mean that the First National bank of Chicago has increased its dividend to 12 percent. The surplus now is \$4,000,000.

Bank of the First National. The bank of the First National bank of Chicago yesterday voted to increase the dividend on the common stock from 10 to 12 percent in payment of quarterly dividend of 3 percent by the First National and Savings bank, whose stock is held in trust for First National National. This shift in dividends will mean that the First National bank of Chicago has increased its dividend to 12 percent. The surplus now is \$4,000,000.

This shift in dividends will mean that the First National bank of Chicago has increased its dividend to 12 percent. The surplus now is \$4,000,000.

Bank of the First National. The bank of the First National bank of Chicago yesterday voted to increase the dividend on the common stock from 10 to 12 percent in payment of quarterly dividend of 3 percent by the First National and Savings bank, whose stock is held in trust for First National National. This shift in dividends will mean that the First National bank of Chicago has increased its dividend to 12 percent. The surplus now is \$4,000,000.

STOCKS GAIN; MOST IRREGULAR; CALL MONEY UP

Chicago stocks were less active yesterday and prices were irregular. Montgomery Ward and Sears-Roebuck were under pressure, early, but later turned up. The former closing steady and the latter making a net gain of a point. Union Carbide was firm. Liberty-McNeill gained a fraction, and Stewart-Warner declined fractionally. United Iron Works dropped 2 points, while American Shipbuilding preferred was up 1 point from the last previous sale.

INVESTORS' GUIDE

Answers to inquiries are based upon information which Trust Taurine believes reliable, fair, and unprejudiced, but beyond the exercise of care in securing such information Trust Taurine assumes no responsibility.

Kelly Springfield Tire. F. W. P.-The Kelly Springfield Tire company made net earnings of \$1,511,883 last year, compared with \$1,533,785 in 1918. After deduction of interest, dividend on preferred stock, etc., also \$1,574,351 for war tax of 1918, only 4 1/2 percent on the \$5,811,573 of common stock was left. Dividends of 16 percent in cash and 8 percent in stock were paid, leaving a deficit for the year of \$1,099,578.

Brief Answers. E. K. Hudson, Mich.-The Trumbull Steel company has issued \$1,500,000 of common stock and \$10,000,000 preferred. Dividends are being paid at the rate of 1 1/2 percent regular and 1 percent extra quarterly on common. The company has been expanding rapidly and little information is made public.

D. B.-The Virginia Carolina Chemical company earned 204 percent on its \$27,844,000 of common stock in the year ended May 31 last, compared with 11 in the year before. Six percent was paid on the common, leaving \$4,000,000 to be added to surplus, making it \$27,434,857.

I. M. Lake Geneva, Wis.-When reports of earnings under the new rate appear there will be some basis for an estimate of how much the Great Northern railway can earn on its stock. During the period of government operation it earned only part of its dividend.

H. S. S.-Both Cando Oil and Vivandou have been reviewed under the new rate envelope for clippings if you wish them.

ORIENT BECKONS

SAM THE TRADER, BANK BOOK SAYS

The greatest opportunities for American foreign trade in the future lie in the Orient rather than in Europe, this is the conclusion expressed in a book, "Trading with the Far East," which has just been issued by the Irving National bank of New York. The book is a compilation of information on the commercial possibilities of the countries of the Orient from the standpoint of American importers and exporters are given.

"America's commerce with the far east has increased \$2,000,000,000 in the past year," says the book. "The figures furnish a ground for the belief that in the future years the American trade in the Orient will be a more important factor in the nation's commerce than it is at the beginning of a new decade. The book is a compilation of information on the commercial possibilities of the countries of the Orient from the standpoint of American importers and exporters are given."

China, the book says, "The country is the beginning of an industrial development of vast possibilities. In the past few years she must have roads, bridges, waterways, telegraphs, and other modern facilities. Her coal and iron must be brought out of the ground and methods of transportation devised that they may be utilized. The vast quantities of raw materials, factory and mining equipment, and public utilities, and to obtain these outside financial aid. Her rising power must be developed before she can become a great nation."

Shift in Dividends. The directors of the First National bank of Chicago yesterday voted to increase the dividend on the common stock from 10 to 12 percent in payment of quarterly dividend of 3 percent by the First National and Savings bank, whose stock is held in trust for First National National. This shift in dividends will mean that the First National bank of Chicago has increased its dividend to 12 percent. The surplus now is \$4,000,000.

Bank of the First National. The bank of the First National bank of Chicago yesterday voted to increase the dividend on the common stock from 10 to 12 percent in payment of quarterly dividend of 3 percent by the First National and Savings bank, whose stock is held in trust for First National National. This shift in dividends will mean that the First National bank of Chicago has increased its dividend to 12 percent. The surplus now is \$4,000,000.

CROP REPORTING
SYSTEM TO COVER
WORLD PLANNED

By FRANK RIDGWAY.

Grain farmers of the United States want to know what the harvesters of Europe, South America, and other countries are doing. They would like to know how much grain they have in their elevators, granaries, and fields at different seasons of the year. In a two-day conference, which ended here yesterday, members of the National Grain Dealers' association and crop experts from Washington inaugurated a movement for the establishment of a world crop reporting system.

H. R. Meisch, president of the federal body of grain dealers, authorized the statement that congress will be urged by the farmers' National Grain Dealers' association to grant to the department of agriculture funds sufficient to gather trustworthy information on farm products from all the principal countries of the world. This report will be on crop conditions, supply and demand, and all other changes affecting prices on staple farm products.

Existing agencies will be used. However, it may be necessary to have, in addition, about ten or twelve crop experts scattered in different parts of the world to supervise the gathering of information and send it to the department of agriculture at Washington.

Shipping Board Announces

3,224 Employees Let Out

Washington, D. C., Sept. 28.—An act in its personnel of 3,224 employees resulting in a decrease in the pay roll of \$350,372 during the fiscal year of 1920 was announced tonight by the shipping board. On July 1, 1919, the board stated its employees all over the country numbered 11,765, with an annual pay roll of \$429,876, and on July 1, 1920, there were 3,442 employees with a pay roll of \$143,769.

OFFICIAL WEATHER FORECAST.

PACKARD
REDUCTIONS

Are not necessary. Why? Because, when prices of other used and rebuilt cars were raised, Packard's remained the same. Our aim has always been to pave the way for new car sales and not for profit, and the man who buys a used or rebuilt car today pays the same price he paid last year or years before. Reduction on used cars are only necessary where the original sale price was higher than the real value.

Twin Six Rebuilt cars range in price from \$3,480 to \$4,760.

Other exceptional values in Twin Six cars from \$1,400 up.

Come in and look over our stock.

STUDEBAKER
REDUCTIONS

We are offering the greatest values ever known in used cars at a saving from \$100 to \$500 per car.

Stop in and be convinced.

LIBERAL TERMS

Open Sunday and evenings

STUDEBAKER SALES CO. OF CHICAGO.

2630 Michigan-av.

FORDS

We have reduced the price of used Ford cars so that you can have your choice at a price you can afford. If you do not want to pay cash we will accept as little as \$100 down and you can drive your car while you pay the balance. Buy your car while you are here, thereby getting the best of an automobile.

These prices include Freight and War Tax.
